

The background of the cover features several abstract, glowing molecular or network structures. These structures are composed of interconnected nodes (represented by small spheres in blue, red, and yellow) and edges (represented by thin lines). Some structures are elongated and linear, while others are more branched or star-like. They are set against a dark, textured background that resembles a night sky or a microscopic view of a material.

Bridging Peace and Sustainability Amidst Global Transformations Ayyoob Sharifi, Dahlia Simangan, Shinji Kaneko, 2023-12-22 This book is the sequel to a well received book titled Integrated Approaches to Peace and Sustainability that aims to further advance the understanding of the dynamic interactions between various components of peace and sustainability How are peace and sustainability linked to each other and what are the key parameters that define the nexus between them This book addresses those questions through a combination of theoretical studies and empirical research that contextualize peace and sustainability issues amid global transformations The conceptual and empirical linkages between peace and sustainability are widely recognized in academic and policy circles The adoption of the 2030 Agenda for Sustainable Development confirms this recognition However many of the initiatives on peace and sustainability operate in silos undermining the positive and mutually reinforcing relationship between them Enhanced integration of peace and sustainability components is imperative for addressing complex challenges that come with global transformations that are manifested environmentally socially politically and economically across levels It is therefore crucial to identify the pathways that enhance the peace promoting potential of sustainability and the sustainability promoting potential of peace The contributions in this edited book elaborate on such pathways by offering insights related to different social economic and environmental aspects of the peace sustainability nexus Given its inter and trans disciplinary focus the book is of interest to policymakers and researchers working in different areas of peace and sustainability It contributes to ongoing academic and policy discussions surrounding the outcomes of and challenges to achieving the Sustainable Development Goals SDGs particularly SDG 16 on peace justice and strong institutions

host communities The host communities are particularly threatened by the cultural incongruence which is believed to interfere with their way of life The book provides knowledge and understanding of the complex and multifaceted nature of refugee host relations and offers key insights for guiding policy and practice especially in countries that host large refugee populations A valuable resource for researchers and academics in sociology migration and refugee studies and those interested to understand how cultural proximity influences refugee host relations and how the diverse nature of refugees shapes their relations with host state and communities
