the centuries adapting to local and national conditions Catholicism and Politics in Communist Societies surveys these local and national adaptations in their historical contexts linking the past experience of the church to its present circumstances Organized around themes of tradition vs modernity hierarchy vs lower clergy and institutional structure vs grass roots organization this comprehensive volume presents a detailed country by country portrait of the political and social status of the church today in communist and socialist settings Contributors Pedro Ramet Arthur F McGovern Roman Solchanyk Ivan Hvat Robert F Goeckel C Chrypinski Milan J Reban Leslie Laszlo Janice Broun Eric O Hanson Stephen Denney Thomas E Quigley Humberto Belli Hansjakob Stehle George H Williams The Future of Development Gustavo Esteva,Salvatore J. Babones,Philipp Babicky,2013-10-09 On January 20 1949 US President Harry S Truman officially opened the era of development On that day over one half of the people of the world were defined as underdeveloped and they have stayed that way ever since This book explains the origins of development and underdevelopment and shows how poorly we understand these two terms It offers a new vision for development demystifying the statistics that international organizations use to measure development and introducing the alternative concept of buen vivir the state of living well The authors argue that it is possible for everyone on the planet to live well but only if we learn to live as communities rather than as individuals and to nurture our respective commons Scholars and students of global development studies are well aware that development is a difficult concept This thought provoking book offers them advice for the future of development studies and hope for the future of humankind
