**Create Success!** Kadhira Rajagopal, 2011-05-15 For far too long disadvantaged students in urban environments have believed the fallacy that academic success is unattainable Why The unfortunate answer is that too many urban school systems preemptively declare underperforming students to be failures a practice that fosters dysfunctional classrooms that fail to motivate engage and inspire students to succeed In Create Success Kadhira Rajagopal affectionately known as Dr Raja to his students outlines his no holds barred approach to teaching urban students Through his CREATE model of instruction students are held accountable for their own learning taught at an appropriate level and in familiar language and imbued with the sense that learning and personal achievement are qualities of which they should be proud not ashamed Dr Raja s CREATE model also places an emphasis on the active participation of teachers parents caregivers and coaches in each student s success Resulting in unprecedented success among students previously dismissed as lost causes and academic failures the CREATE model has demonstrated that it is indeed possible to close the achievement gap even in the most difficult cases Rajagopal has also shown that his model can be replicated in any classroom by a teacher who is willing to assume responsibility for each student s success hold students accountable embrace culturally responsive instruction and vigorously work on behalf of all students Filled with personal insights and battle tested strategies that promote student achievement Create Success is a pioneering approach to urban education from a 2011 California Teacher of the Year

The Six Priorities Luis Eladio Torres,2023-01-10 In this provocative and timely book Luis Eladio Torres challenges a common assumption that education is the first priority for families including those who are raising their children in low income high need communities Instead he argues that these families must confront daunting challenges in five other areas food shelter safety health and access to technology before they can focus on their children s education To make his case Torres draws on his experience as the award winning principal of an elementary school in the Bronx and as a leader in New York City s community schools network A community school focuses on educating the whole child supporting families and extending its reach into the larger community both by tapping into resources the community can offer and by providing a range of social and health services to that community The Six Priorities How to Find the Resources Your School Community Needs demonstrates how leaders in challenging education environments can improve their schools through a community matching process that consists of four steps 1 Identifying the gaps between what is available and what is necessary for a school and its community to function well 2 Specifying needs

including prioritizing and distinguishing needs from wants 3 Telling your story as a way to gain support for the effort to close the gap and address the needs 4 Establishing strategic partnerships with individuals organizations and agencies that can provide resources and expertise To help you implement the process in your own school this insightful guide includes a downloadable community matching worksheet The goals of this process are clear to reduce the shocking inequities between impoverished communities and their wealthier counterparts to help disadvantaged students succeed and ultimately to steer them toward productive lives beyond the classroom The need has never been greater *The Principal* 50 Baruti K.
