Creating Conservatism Postwar Words That Made An American Movement Rhetoric Public Affairs:

Creating Conservatism Michael J. Lee, 2014-08-01 *Creating Conservatism* charts the vital role of canonical post World War II 1945 1964 books in generating guiding and sustaining conservatism as a political force in the United States Dedicated conservatives have argued for decades that the conservative movement was a product of print rather than a march a protest or a pivotal moment of persecution *The Road to Serfdom* Ideas Have Consequences *Witness The Conservative Mind* *God and Man at Yale* *The Conscience of a Conservative* and other mid century texts became influential not only among conservative office holders office seekers and well heeled donors but also at dinner tables school board meetings and neighborhood reading groups These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions functioning in essence as debate handbooks Taking an expansive approach the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars *Creating Conservatism* generates original insights about the struggle over what it means to think and speak conservatively in America

Persons of the Market Kevin Musgrave, 2022-08-01 Taking corporate personhood as a starting point *Persons of the Market* observes the complex historical entanglement of Christian theology and liberal capitalism to shed new light on their seemingly odd marriage in contemporary American politics Author Kevin Musgrave highlights the ways that theories of corporate and human personhood have long been and remain bound together by examining four case studies the U S Supreme Court s 1886 Santa Clara decision the role of early twentieth century advertisers in endowing corporations with souls Justice Lewis Powell Jr s eponymous memo of 1971 and the arc of the conservative movement from Ronald Reagan to Donald Trump Tracing this rhetorical history of the extension and attribution of personhood to the corporate form illustrates how the corporation has for many increasingly become a normative model or ideal to which human persons should aspire In closing the book offers preliminary ideas about how we might fashion a more democratic and humane understanding of what it means to be a person

Republican Orators from Eisenhower to Trump Andrew S. Crines, Sophia Hatzisavvidou, 2017-11-22 This is the first thorough and systematic interrogation of Republican Party oratory and rhetoric that examines a series of leading figures in American conservative politics It asks How do leading Republican Party figures communicate with and influence their audiences What makes a successful speech and why do some speeches fail to resonate Most importantly it also investigates why orators use different styles of communication with different audiences such as the Senate party conventions public meetings and through the media By doing so it shines important new light into conservative politics from the era of Eisenhower to the more brutal politics of Donald Trump The book will appeal to students and scholars across the fields of US politics contemporary US history and rhetoric and communication studies

Political Conversion Don Waisanen, 2018-04-20 Stories of religious conversion have been told for millennia Yet many prominent figures such as

Ronald Reagan Hillary Clinton and Rick Perry have also used stories of their change from one political worldview to another as a communication strategy aimed at winning the hearts and minds of the public This book is about political conversion stories in public discourse in their evolution from and interactions with religion From a historical perspective it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages Since these narratives continue to be used in the culture wars this book examines several related autobiographies that contributed to the use of this strategy in contemporary U S politics Each case shows how shifts during the postwar period called for conversion texts under varying guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right Examining political conversion as a form of public persuasion Political Conversion ultimately provides insight into what these types of civic religious stories mean for democratic communication and communities

The Lost Chance in China and the Rise of Cold War Populism Stephen J. Hartnett, 2025-10-01 The Lost Chance in China and the Rise of Cold War Populism offers a rollicking retelling of the fate of America's diplomats stationed in China during World War II and the start of the Chinese Civil War documenting how their efforts to find peace in China clashed with the anti Communist network of right wing advocates known as the China Lobby Fueled by America's end of the war fury over the loss of China to Mao and the Communists the on the ground experts in Asia lost the public relations battle to Cold War populists who pushed a toxic version of public anger that built the rhetorical foundation of McCarthyism Hartnett diagnoses the moment's political battles by mapping a series of interlocking dispositions emotion based reactions that short circuited critical thinking and empathy instead feeding strident anti Communism xenophobia and class based resentments Hartnett's masterwork offers a haunting prehistory to our contemporary moment when populism again stokes outrage and fear at the cost of nuanced international understanding *America, History and Life*, 2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada [Why Are Professors Liberal and Why Do Conservatives Care?](#) Neil Gross, 2013-04-09 Neil Gross shows that the U S academy's liberal reputation has exerted a self selecting influence on young liberals while deterring promising conservatives His study sheds new light on both academic life and American politics where the conservative movement was built in part around opposition to the liberal elite in higher education [Rhetoric and Public Affairs 19, No. 2](#) Martin J.
