Fraser Shilling Daniel Wendell Robert Wilkinson Cleo Woelfle Erskine Sarah Yarnell **Recovering Caribbean Nature**

James A. Kushlan, Kirsten Hines, 2024-10-29 The Caribbean is a global biodiversity hotspot half its resident bird species are found nowhere else yet a quarter are threatened with extinction Nearly all its native amphibians and reptiles and thousands of plants also are endemic Yet less than 1% of the landscape can be considered natural and apart from reserves most land is privately owned Despite the challenges of such habitat fragmentation the Caribbean's distinctive fauna and flora can be preserved through planning and managing a connected network of sustainable naturalistic landscapes reserves parks and private gardens This book uniquely provides both a theoretical background and practical applications to restoring nature within the tropical Caribbean Packed with beautiful color photographs it offers unifying principles that can be applied across the tropics and synthesizes information on the Caribbean's environmental uniqueness and globally significant biodiversity It also provides explicit guidance on establishing sustainable and more naturalistic landscapes from large public lands to private yards and gardens The book is essential reading for academics and researchers studying the Caribbean environment resource management professionals and scientists and educators from nongovernmental organizations who provide programs and advocacy for conservation and regional sustainability Moreover it highlights the importance of private lands and gardens where the greatest gains can be made and so offers a handbook for knowledgeable private landowners and their professional advisors

Earth Repair Leila Darwish, 2013-06-01 Resistance is fertile bioremediation techniques to heal the earth Millions of acres of land have been contaminated by pesticides improperly handled chemicals dirty energy projects toxic waste and other pollutants in the United States and Canada This toxic legacy impacts the environment our health our watersheds and land that could otherwise be used to grow healthy local food and medicines Conventional clean up techniques employed by government and industry are tremendously expensive and resource intensive and can cause further damage More and more communities find themselves increasingly unable to rely on those companies and governments who created the problems to step in and provide solutions Earth Repair describes a host of powerful grassroots bioremediation techniques including Microbial remediation using microorganisms to break down and bind contaminants Phytoremediation using plants to extract bind and transform toxins Mycoremediation using fungi to clean up contaminated soil and water Packed with valuable firsthand information from visionaries in the field Earth Repair empowers communities and individuals to take action and heal contaminated and damaged land Encompassing everything from remediating and regenerating abandoned city lots for urban farmers and gardeners to recovering from environmental disasters and industrial catastrophes such as oil spills and nuclear fallout this fertile toolbox is essential reading for anyone who wishes to transform environmental despair into constructive action

Garden Revolution Larry Weaner, Thomas Christopher, 2016-05-18 A leading landscape designer shows how an ecological approach can lead to beautiful gardens that benefit the environment and require less time and money According to landscape designer Larry Weaner conventional gardening is full of counter

intuitive time consuming and even harmful habits The constant tilling weeding irrigating and fertilizing create perpetual disturbance in a plot s ecology and waste countless hours in a dubious struggle against nature In *Gardening Revolution* Weaner offers a radically new approach based on the ways plants and wildlife behave in nature He advocates for a more fluid style choosing plants that are adapted to the soil and climate and then capitalizing on positive developments as they occur This lushly photographed reference is for anyone looking for a better smarter way to garden
