The Executive Branch

Article II of the Constitution established the executive branch. The Executive Branch has one leader called the president. Some delegates wanted the president to serve for life but many people did not like the idea because it sounded too much like monarchy. It was decided that the president would serve a 4-year term. The president must be at least 35 years old, be natural born citizen of the United States and have lived in the U.S. for at least 14 years. The president can serve two 4-year terms. The president is the leader of our country and is the commander-in-chief of the military. The vice president is also in the branch and is the president of the Senate and takes over if the president can no longer do the job.

The White House

The president can veto laws passed by Congress, or making laws being changed. When the legislative branch approves a bill, they send it to the president to be approved or vetoed or dropped. If the president agrees to the bill, he signs it. If he vetoes it, the bill has to go back to Congress and be approved with a two-thirds vote against the president's veto. The president cannot create a bill but can make a suggestion to Congress and a member can submit it to the bill of the president. The president is the commander-in-chief of the military which means meeting with leaders of other countries and making treaties with them. The president also has the power to choose judges, ambassadors, and department leaders, but they have to be approved by Congress. The Vice President takes over becoming the president if the president and vice president are the only governors left. Vetoed laws by the entire country.

The Judicial Branch

Article III of the Constitution established the judicial branch. The judicial branch is made up of the court system. This is the Supreme Court. It is the highest court in the United States. There are nine justices on the Supreme Court. They are appointed by the president but must be approved by the Senate. Justices serve on the Supreme Court for the rest of their lives unless they resign or retire early. There are no requirements for becoming a justice, however most have had training and education in the law. They have also worked in Congress, were attorneys, or worked in the president's cabinet.

The Supreme Court Building

The judicial branch makes sure that laws are fair and that they follow the rules of the Constitution. When Congress creates new laws, the judicial branch makes sure the laws are constitutional or they cannot be passed. The Supreme Court also hears legal cases that make it through the court system to federal court. They also hear cases when federal laws are broken. They hear cases that challenge the Constitution. Since this is the highest court, they decide a final
