Cinema And Agamben Ethics Biopolitics And The Moving Image:

Cinema and Agamben Henrik Gustafsson, Asbjorn Gronstad, 2014-01-16 Cinema and Agamben brings together a group of established scholars of film and visual culture to explore the nexus between the moving image and the influential work of Italian philosopher Giorgio Agamben Including two original texts by Agamben himself published here for the first time in English translation these essays facilitate a unique multidisciplinary conversation that fundamentally rethinks the theory and praxis of cinema In their resourceful analyses of the work of artists such as David Claerbout Jean Luc Godard Philippe Grandrieux Michael Haneke Jean Rouch and others the authors put to use a range of key concepts from Agamben s rich body of work like biopolitics de creation gesture potentiality and profanation Sustaining the eminently interdisciplinary scope of Agamben s writing the essays all bespeak the importance of Agamben s thought for forging new beginnings in film theory and for remedying the elegiac proclamations of the death of cinema so characteristic of the current moment Cinema and Agamben

Henrik Gustafsson, Asbjorn Gronstad, 2015-08-27 Cinema and Agamben brings together a group of established scholars of film and visual culture to explore the nexus between the moving image and the influential work of Italian philosopher Giorgio Agamben Including two original texts by Agamben himself published here for the first time in English translation these essays facilitate a unique multidisciplinary conversation that fundamentally rethinks the theory and praxis of cinema In their resourceful analyses of the work of artists such as David Claerbout Jean Luc Godard Philippe Grandrieux Michael Haneke Jean Rouch and others the authors put to use a range of key concepts from Agamben s rich body of work like biopolitics de creation gesture potentiality and profanation Sustaining the eminently interdisciplinary scope of Agamben s writing the essays all bespeak the importance of Agamben s thought for forging new beginnings in film theory and for remedying the elegiac proclamations of the death of cinema so characteristic of the current moment **The Biopolitics of Gesture in the Cinema of Yorgos Lanthimos**

Carlo Comanducci, 2024-12-03 This book establishes a dialogue between Yorgos Lanthimos and Giorgio Agamben as a way of interpreting the weird roles rules and rituals that define and discipline lives in Lanthimos s early works from *Kinetta* to *The Killing of a Sacred Deer* By exploring the resonance between Lanthimos s cinema and Agamben s understanding of gesture this work wants to contribute to a theory of performative power under biopolitical and spectacular modalities of government focussing in particular on Agamben s ideas of operativity and inoperativity and on the construction and deconstruction of the white bourgeois normative and consensual formality of life In turn the role gestures play in Lanthimos s critique of patriarchy and of neoliberal forms of vulnerabilisation is used to question Agamben s unspoken affinities with contemporary radical feminism and queer theory Ex-centric Cinema

Janet Harbord, 2016-10-20 Demonstrates how Agamben s ideas can enrich and extend our understanding of film as a medium and the cinema as an apparatus constantly being remade **Women Artists, Feminism and the Moving Image**

Lucy Reynolds, 2019-08-22 What is the significance of gendered identification in relation to artists moving image How do women

artists grapple with the interlinked narratives of gender discrimination and gender identity in their work In this groundbreaking book a diverse range of leading scholars activists archivists and artists explore the histories practices and concerns of women making film and video across the world from the pioneering German animator Lotte Reiniger to the influential African American filmmaker Julie Dash and the provocative Scottish contemporary artist Rachel Maclean Opening with a foreword from the film theorist Laura Mulvey and a poem by the artist film maker Lis Rhodes *Women Artists Feminism and the Moving Image* traces the legacies of early feminist interventions into the moving image and the ways in which these have been re configured in the very different context of today Reflecting and building upon the practices of recuperation that continue to play a vital role in feminist art practice and scholarship essays discuss topics such as how multiculturalism is linked to experimental and activist film history the function and nature of the essay film feminist curatorial practices and much more This book transports the reader across diverse cultural contexts and geographical contours addressing complex narratives of subjectivity representation and labour while juxtaposing cultures of film video and visual arts practice often held apart As the editor Lucy Reynolds argues it is at the point where art moving image and feminist discourse converge that a rich and dynamic intersection of dialogue and exchange opens up bringing to attention practices which might fall outside their separate spheres and offering fresh perspectives and insights on those already established in its histories and canons

A Companion to the Biopic Deborah Cartmell, Ashley D. Polasek, 2020-01-15 The most comprehensive reference text of theoretical and historical discourse on the biopic film The biopic often viewed as the most reviled of all film genres traces its origins to the early silent era over a century ago Receiving little critical attention biopics are regularly dismissed as superficial formulaic and disrespectful of history Film critics literary scholars and historians tend to believe that biopics should be artistic yet accurate true to life representations of their subjects Moviegoing audiences however do not seem to hold similar views biopics continue to be popular commercially viable films Even the genre's most ardent detractors will admit that these films are often very watchable particularly due to the performance of the lead actor It is increasingly common for stars of biographical films to garner critical praise and awards driving a growing interest in scholarship in the genre *A Companion to the Biopic* is the first global and authoritative reference on the subject Offering theoretical historical thematic and performance based approaches this unique volume brings together the work of top scholars to discuss the coverage of the lives of authors politicians royalty criminals and pop stars through the biopic film Chapters explore evolving attitudes and divergent perspectives on the genre with topics such as the connections between biopics and literary melodramas the influence financial concerns have on aesthetic social or moral principles the merger of historical narratives with Hollywood biographies stereotypes and criticisms of the biopic genre and more This volume Provides a systematic in depth analysis of the biopic and considers how the choice of historical subject reflects contemporary issues Places emphasis on films that portray race and gender issues Explores the uneven boundaries of the genre by addressing what is and is not a

biopic as well as the ways in which films simultaneously embrace and defy historical authenticity Examines the distinction between reality and the real in biographical films Offers a chronological survey of biopics from the beginning of the 20th century A Companion to the Biopic is a valuable resource for researchers scholars and students of history film studies and English literature as well as those in disciplines that examine interpretations of historical figures The Ethics of a Potential Urbanism Camillo Boano, 2016-11-25 The Ethics of a Potential Urbanism explores the possible and potential relevance of Giorgio Agamben's political thoughts and writings for the theory and the practice of architecture and urban design It sketches out the potentiality of Agamben's politics which can affect change in current architectural and design discourses The book investigates the possibility of an inoperative architecture as an ethical shift for a different practice just a little bit different but able to deactivate the sociospatial dispositive and mobilize a new theory and a new project for the urban now to come This particular reading from Agamben's oeuvre suggests a destituent mode of both thinking and practicing of architecture and urbanism that could possibly redeem them from their social emptiness cultural irrelevance economic reductionism and proto avant garde extravagance contributing to a renewed critical encounter with architecture's aesthetic political function

Corporeality in Early Cinema Marina Dahlquist, Doron Galili, Jan Olsson, Valentine Robert, 2018-10-16 Corporeality in Early Cinema inspires a heightened awareness of the ways in which early film culture and screen praxes overall are inherently embodied Contributors argue that on and offscreen and in affiliated media and technological constellations the body consists of flesh and nerves and is not just an abstract spectator or statistical audience entity Audience responses from arousal to disgust from identification to detachment offer us a means to understand what spectators have always taken away from their cinematic experience Through theoretical approaches and case studies scholars offer a variety of models for stimulating historical research on corporeality and cinema by exploring the matrix of screened bodies machine made scaffolding and their connections to the physical bodies in front of the screen

Godard and Sound Albertine Fox, 2017-12-18 What happens when we listen to a film How can we describe the relationship of sound to vision in cinema and in turn our relationship as spectators with the audio visual Jean Luc Godard understood the importance of the soundtrack in cinema and relied heavily on the impact of carefully constructed sound to produce innovative effects For the first time this book brings together his post 1979 multimedia works and an analysis of their rich soundscapes The book provides detailed critical discussions of feature length films shorts and videos delving into Godard's inventive experiments with the cinematic soundtrack and offering new insights into his latest 3D films By detailing the production contexts and philosophy behind Godard's idiosyncratic sound design it provides an accessible route to understanding his complex use of music speech and environmental sound alongside the distorting effects of speed alteration and auditory excess The book is framed by the concept of acoustic spectatorship a way of cultivating active listening in the viewer It also draws on ideas by leading sound theorists philosophers musicians and poets giving particular emphasis to the pioneering
