## Citroen User Manuals:

Environmental Information in Instructions for Use of Consumer Products Ari Nissinen, 2005-03-11 The European Union has highlighted the issue of environmentally sound use of products in the context of Integrated Product Policy IPP. Accordingly, consumers should have easy access to understandable relevant and credible environmental information. Information about product characteristics is available in different forms and sources but in many cases relevant environmental information is not available on the product itself. The study described in this report was initiated in order to produce information on the state of user instructions regarding environmental information. User manuals of passenger cars and refrigerators were focused on examining the advice which could diminish the harmful environmental effects of the use of these products. Other studied products included such durable products as textiles and furniture as well as such consumables as cleaning chemicals and recyclable paper products. The study raised many ideas about actions that could promote the status and eco development of instructions for use.

**Citroën Owners Workshop Manual** John Harold Haynes, Bruce Gilmour, 1986 Automotive Industries, 1922 *Citroen* Lance Cole, 2014-03-31 In this new view on the Citroen story, automotive aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents, and specially commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron, and recent Citroen designers such as Coco Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it cites less well-known names of Citroen's French engineering design and influence such as Cayla, Gerin, Giret, Harmand, Dargent, and others to give a full picture of Citroen heritage.
