# COLT'S .22 Cal. CONVERSION UNIT with Floating Chamber and COLT'S ACCRO REAR SIGHT

Designed for economical target shooting with .22 Long Rifle ammunition, using the regular receiver assembly of the Colt .45 or Colt Super .38 Automatic Pistols. The Colt ACCRO Rear Sight insures increased accuracy with this new and improved accessory.

This Unit has been designed to make possible the use of .22 Long Rifle ammunition . . . utilizing the regular Receiver and parts of the Colt Government Model .45 Caliber Automatic Pistol and the Colt Super .38 Automatic Pistol. The parts included in this Unit are easily interchanged with the regular Colt .45 Automatic or Colt Super .38 Receiver and parts in a very few minutes.

The Colt .22 Cal. Conversion Unit makes target practice possible at approximately one-seventh the cost of .45 caliber shooting. In addition, it provides an efficient target practice arm that is ideal for new shooters. Shooters trained with this Unit will master the fundamentals of target shooting without developing the habits of flinching and fighting the recoil that are so often acquired by beginners attempting to learn with heavier caliber ammunition.

It is well to note that the Floating Chamber, with which this Unit is equipped, produces a recoil that is approximately four times the recoil of .22 Long Rifle ammunition when used in regular .22 caliber arms. This is advantageous, because of the similarity of shooting conditions encountered when firing the heavy caliber ammunition. It eliminates the mental reaction always found when new shooters begin firing the .45 or Super .38 caliber automatic cartridges.

This Conversion Unit is safe. The automatic Grip Safety operates with the Unit installed, just as it does when the arm is equipped with the regular .45 or Super .38 caliber parts.
