Critics at Work Jeffrey Williams, 2004-03 A collection of sixteen short science fiction and fantasy stories by award winning authors *Firebirds* is more than simply an anthology it is a celebration of wonderful writing It gathers together sixteen original stories by some of today's finest writers of fantasy and science fiction Together they have won virtually every major prize from the National Book Award to the World Fantasy Award to the Newbery Medal and have made best seller lists worldwide These authors including Lloyd Alexander *The Chronicles of Prydain* Diana Wynne Jones *The Merlin Conspiracy* Garth Nix *The Abhorsen Trilogy* Patricia A McKillip *Ombria in Shadow* Meredith Ann Pierce *The Darkangel Trilogy* and Nancy Farmer *The House of the Scorpion* each with his or her own inimitable style tell stories that will entertain provoke startle amuse and resonate long after the last page has been turned The writers featured in *Firebirds* all share a connection to Firebird Books an imprint that is dedicated to publishing the best fantasy and science fiction for teenage and adult readers This anthology marks a milestone for Firebird and is a must read for all teenage and adult fans of speculative fiction Firebird the imprint is dedicated to publishing the best fantasy and science fiction for teenage and adult readers *Firebirds* is an equally special anthology Its sixteen original stories showcase some of the genre's most admired authors including multiple award winners Diana Wynne Jones Garth Nix Lloyd Alexander Nancy Farmer Meredith Ann Pierce and Patricia A McKillip Here you will find a sparkling range of writing from dark humor to high sword and sorcery to traditional ballads something for every sort of reader Finally to make this anthology even more of a standout it appears first as a deluxe jacketed hardcover Welcome to *Firebirds* a must have for fans of contemporary speculative fiction

Crip Theory Robert McRuer, 2006-06 McRuer makes a case that queer and disabled identities politics and cultural logics are inexorably intertwined and that queer and disability theory need one another *Crip theory* makes clear that no cultural analysis is complete without attention to the politics of bodily ability and alternative corporealities

The Disarticulate James Berger, 2014-05-23 Language is integral to our social being But what is the status of those who stand outside of language The mentally disabled wild children people with autism and other neurological disorders as well as animals infants angels and artificial intelligences have all engaged with language from a position at its borders In the intricate verbal constructions of modern literature the disarticulate those at the edges of language have paradoxically played essential defining roles Drawing on the disarticulate figures in modern fictional works such as *Billy Budd* *The Sound and the Fury* *Nightwood* *White Noise* and *The Echo Maker* among others James Berger shows in this intellectually bracing study how these characters mark sites at which aesthetic philosophical ethical political medical and scientific discourses converge It is also the place of the greatest ethical tension as society confronts the needs and desires of the least of its brothers Berger argues that the disarticulate is that which is unaccountable in the discourses of modernity and thus stands as an alternative to the prevailing social order Using literary history and theory as well as disability and trauma theory he examines how these disarticulate figures reveal modernity's anxieties in terms of how it

constructs its others **Publications of the Modern Language Association of America** Modern Language Association of America,2004 **The Left at War** Michael Bérubé,2011-07 The terrorist attacks of 9 11 and Bush s belligerent response fractured the American left partly by putting pressure on little noticed fissures that had appeared a decade earlier In a masterful survey of the post 9 11 landscape renowned scholar Michael B rub revisits and reinterprets the major intellectual debates and key players of the last two decades covering the terrain of left debates in the United States over foreign policy from the Balkans to 9 11 to Iraq and over domestic policy from the culture wars of the 1990s to the question of what if anything is the matter with Kansas The Left at War brings the history of cultural studies to bear on the present crisis a history now trivialized to the point at which few left intellectuals have any sense that merely cultural studies could have something substantial to offer to the world of international relations debates over sovereignty and humanitarian intervention matters of war and peace The surprising results of B rub s arguments reveal an American left that is overly fond of a form of countercultural politics in which popular success is understood as a sign of political failure and political marginality is understood as a sign of moral virtue The Left at War insists that in contrast to American countercultural traditions the geopolitical history of cultural studies has much to teach us about internationalism for in order to think globally we need to think culturally and in order to understand cultural conflict we need to think globally At a time when America finds itself at a critical crossroads The Left at War is an indispensable guide to the divisions that have created a left at war with itself **No University Is an Island** Cary Nelson,2011-10 This text offers a comprehensive account of the social political and cultural forces undermining academic freedom At once witty and devastating it confronts these threats with frankness then offers a prescription for higher education s renewal Deafening Modernism Rebecca Sanchez,2015-10-02 Deafening Modernism tells the story of modernism from the perspective of Deaf critical insight Working to develop a critical Deaf theory independent of identity based discourse Rebecca Sanchez excavates the intersections between Deaf and modernist studies She traces the ways that Deaf culture history linguistics and literature provide a vital and largely untapped resource for understanding the history of American language politics and the impact that history has had on modernist aesthetic production Discussing Deaf and disability studies in these unexpected contexts highlights the contributions the field can make to broader discussions of the intersections between images bodies and text Drawing on a range of methodological approaches including literary analysis and history linguistics ethics and queer cultural and film studies Sanchez sheds new light on texts by T S Eliot Ezra Pound Gertrude Stein William Carlos Williams Charlie Chaplin and many others By approaching modernism through the perspective of Deaf and disability studies Deafening Modernism reconceptualizes deafness as a critical modality enabling us to freshly engage topics we thought we knew *How the University Works* Marc Bousquet,Cary Nelson,2008-01-01 Uncovers the labor exploitation occurring in universities across the country As much as we think we know about the modern university very little has been said about what it s like to work there Instead of the high

wage high profit world of knowledge work most campus employees including the vast majority of faculty really work in the low wage low profit sphere of the service economy Tenure track positions are at an all time low with adjuncts and graduate students teaching the majority of courses This super exploited corps of disposable workers commonly earn fewer than 16 000 annually without benefits teaching as many as eight classes per year Even undergraduates are being exploited as a low cost disposable workforce Marc Bousquet a major figure in the academic labor movement exposes the seamy underbelly of higher education a world where faculty graduate students and undergraduates work long hours for fast food wages Assessing the costs of higher education s corporatization on faculty and students at every level How the University Works is urgent reading for anyone interested in the fate of the university

Deaf Subjects Brenda Jo Brueggemann, 2009-05-01 In this probing exploration of what it means to be deaf Brenda Brueggemann goes beyond any simple notion of identity politics to explore the very nature of identity itself Looking at a variety of cultural texts she brings her fascination with borders and between places to expose and enrich our understanding of how deafness embodies itself in the world in the visual and in language Taking on the creation of the modern deaf subject Brueggemann ranges from the intersections of gender and deafness in the work of photographers Mary and Frances Allen at the turn of the last century to the state of the field of Deaf Studies at the beginning of our new century She explores the power and potential of American Sign Language wedged as she sees it between letter bound language and visual ways of learning and argues for a rhetorical approach and digital future for ASL literature The narration of deaf lives through writing becomes a pivot around which to imagine how digital media and documentary can be used to convey deaf life stories Finally she expands our notion of diversity within the deaf identity itself takes on the complex relationship between deaf and hearing people and offers compelling illustrations of the intertwined and sometimes knotted nature of individual and collective identities within Deaf culture

Fantasies of Identification Ellen Samuels, 2014-04-25 Explores the roots of modern understandings of bodily identity In the mid nineteenth century United States as it became increasingly difficult to distinguish between bodies understood as black white or Indian able bodied or disabled and male or female intense efforts emerged to define these identities as biologically distinct and scientifically verifiable in a literally marked body Combining literary analysis legal history and visual culture Ellen Samuels traces the evolution of the fantasy of identification the powerful belief that embodied social identities are fixed verifiable and visible through modern science From birthmarks and fingerprints to blood quantum and DNA she examines how this fantasy has circulated between cultural representations law science and policy to become one of the most powerfully institutionalized ideologies of modern society Yet as Samuels demonstrates in every case the fantasy distorts its claimed scientific basis substituting subjective language for claimed objective fact From its early emergence in discourses about disability fakery and fugitive slaves in the nineteenth century to its most recent manifestation in the question of sex testing at the 2012 Olympic Games Fantasies of Identification explores the roots of modern understandings of bodily identity
