Women and Gendered Violence in Canada Chris Bruckert,Tuulia Law,2018-01-01 Violence against women is usually framed as an issue of interpersonal violence perpetuated by men While domestic violence and sexual assault are significant social problems such a narrow framing obscures the diversity of women s experience fails to illuminate the role social structures play and excludes discussions of workplace and state violence By drawing on a range of theoretical traditions emerging from feminism criminology and sociology *Women and Gendered Violence in Canada* significantly expands the conversation on violence against women The first section of the book develops the conceptual and contextual framework that informs the remainder of the text and the following three sections are organized around types of victimization interpersonal labour site and state Each chapter ends with lists of suggested activities and first person narratives are integrated throughout to personalize the material and issues being examined
