Circling The Square Stories From The Egyptian Revolution:

Circling the Square Wendell Steavenson, 2015-07-21 What happened to the promise of Tahrir Square and the Arab Spring On January 25 2011 the world was watching Cairo Egyptians of every stripe came together in Tahrir Square to protest Hosni Mubarak's three decades of brutal rule After many hopeful turbulent years however Egypt seems to be back where it began with another strongman President Abdel Fattah el Sisi in power How did this happen In *Circling the Square* Wendell Steavenson uses literary reportage to describe the intimate ironies and ad hoc movements of the Egyptian revolution from Mubarak's fall to Mohammed Morsi's Vignettes incidents anecdotes conversations musings observations and character sketches cast a fresh light on this vital Middle Eastern story Closely observing a wide range of people from a thug in a slum with a homemade gun to the democracy documentary makers on Tahrir Square to fundamentalist imams and military intelligence officers Steavenson dares to ask what am I looking at and how can I begin to understand it With a novelist's eye for character Steavenson paints indelible instantly recognizable portraits and dilemmas that illuminate universal questions What does democracy mean What happens when a revolution throws the ideas and values of a society into crisis What is a revolution and finally what can it accomplish

Democratic Transition in the Muslim World Alfred Stepan, 2018-03-13 In early 2011 widespread protests ousted dictatorial regimes in both Tunisia and Egypt Within a few years Tunisia successfully held parliamentary and presidential elections and witnessed a peaceful transition of power while the Egyptian military went on to seize power and institute authoritarian control What explains the success and failure of transitions to democracy in these two countries and how might they speak to democratic transition attempts in other Muslim majority countries *Democratic Transition in the Muslim World* convenes leading scholars to consider the implications of democratic success in Tunisia and failure in Egypt in comparative perspective Alongside case studies of Indonesia Senegal and India contributors analyze similarities and differences among democratizing countries with large Muslim populations considering universal challenges as well as each nation's particular obstacles A central theme is the need to understand the conditions under which it becomes possible to craft pro democratic coalitions among secularists and Islamists Essays discuss the dynamics of secularist fears of Islamist electoral success the role of secular constituencies in authoritarian regimes resilience and the prospects for moderation among both secularist and Islamist political actors They delve into topics such as the role of the army and foreign military aid Middle Eastern constitutions and the role of the Muslim Brotherhood The book also includes an essay by the founder and president of Tunisia's Ennahda Party Rachid Ghannouchi who discusses the political strategies his party chose to pursue

Arab Fall Eric Trager, 2016-10-04 How did Egypt's Muslim Brotherhood win power so quickly after the dramatic Arab Spring uprising that ended President Hosni Mubarak's thirty year reign in February 2011 And why did the Brotherhood fall from power even more quickly culminating with the popular rebellion and military coup that toppled Egypt's first elected president Brotherhood leader Mohamed Morsi in July 2013 In *Arab Fall* Eric Trager

examines the Brotherhood's decision making throughout this critical period explaining its reasons for joining the 2011 uprising running for a majority of the seats in the 2011-2012 parliamentary elections and nominating a presidential candidate despite its initial promise not to do so. Based on extensive research in Egypt and interviews with dozens of Brotherhood leaders and cadres including Morsi, Trager argues that the very organizational characteristics that helped the Brotherhood win power also contributed to its rapid downfall. The Brotherhood's intensive process for recruiting members and its rigid nationwide command chain meant that it possessed unparalleled mobilizing capabilities for winning the first post-Mubarak parliamentary and presidential elections. Yet the Brotherhood's hierarchical organizational culture in which dissenters are banished and critics are viewed as enemies of Islam bred exclusivism. This alienated many Egyptians including many within Egypt's state institutions. The Brotherhood's insularity also prevented its leaders from recognizing how quickly the country was slipping from their grasp leaving hundreds of thousands of Muslim Brothers entirely unprepared for the brutal crackdown that followed Morsi's overthrow. Trager concludes with an assessment of the current state of Egyptian politics and examines the Brotherhood's prospects for reemerging.

Endgames Hicham Bou Nassif, 2020-10-01 The 2011 Arab Spring is the story of what happens when autocrats prepare their militaries to thwart coups but unexpectedly face massive popular uprisings instead. When demonstrators took to the streets in 2011 some militaries remained loyal to the autocratic regimes some defected whilst others splintered. The widespread consequences of this military agency ranged from facilitating transition to democracy to reconfiguring authoritarianism or triggering civil war. This study aims to explain the military politics of 2011. Building on interviews with Arab officers extensive fieldwork and archival research as well as hundreds of memoirs published by Arab officers Hicham Bou Nassif shows how divergent combinations of coup proofing tactics accounted for different patterns of military behaviour in 2011 both in Egypt and Syria and across Tunisia and Libya.

Islam and the Rule of Justice Lawrence Rosen, 2018-03-13 In the West we tend to think of Islamic law as an arcane and rigid legal system bound by formulaic texts yet suffused by unfettered discretion. While judges may indeed refer to passages in the classical texts or have recourse to their own orientations images of binding doctrine and unbounded choice do not reflect the full reality of the Islamic law in its everyday practice. Whether in the Arabic speaking world the Muslim portions of South and Southeast Asia or the countries to which many Muslims have migrated Islamic law works is readily misunderstood if the local cultures in which it is embedded are not taken into account. With Islam and the Rule of Justice Lawrence Rosen analyzes a number of these misperceptions. Drawing on specific cases he explores the application of Islamic law to the treatment of women who win most of their cases the relations between Muslims and Jews which frequently involve close personal and financial ties and the structure of widespread corruption which played a key role in prompting the Arab Spring. From these case studies the role of informal mechanisms in the resolution of local disputes. The author also provides a close reading of the trial of Zacarias Moussaoui who was charged in an American court with helping to carry out the 9/11 attacks using insights

into how Islamic justice works to explain the defendant's actions during the trial. The book closes with an examination of how Islamic cultural concepts may come to bear on the constitutional structure and legal reforms many Muslim countries have been undertaking.

Youth Studies and Generations Vitor Sérgio Ferreira, 2020-03-25 There is currently much discourse about generations in the public sphere. A sequence of letters conflates generations and age cohorts born in the last few decades: generation X, Y, or Z, as well as multiple categories, are used to describe today's young people as a generation that is distinct from its predecessors. Despite the popularity of generational labels in media, politics, or even academia, the use of generation as a conceptual tool in youth studies has been controversial. This Special Issue allows readers to better understand the key issues regarding the use of generation as a theoretical concept and/or as a social category in the field of youth studies, shedding light on the controversies, trends, and cautions that go through it.

Youth at the Margins ELENA SÁNCHEZ-MONTIJANO, Jose SÁNCHEZ GARCÍA, 2019-01-23 The 2011 Arab uprisings led to a great proliferation of studies on the situations in the Arab countries of the Mediterranean, with particular attention given to their young people whose role was particularly central. Eight years on, in-depth exploration is still needed of the conditions in which millions of mainly young people demanded change. In this context, this volume examines the state and diversity of the forms of socioeconomic, political, and cultural marginalization facing the region's young men and women, as well as the strategies and routes of contestation by which they escape them. Through the interdisciplinary empiricism of this book, based on the results emerging from the SAHWA Project funded by the European Commission under the Seventh Framework Programme grant agreement no 613174, we aspire to build a complex description and analysis of the current situation of the Arab Mediterranean youth. The aim is to fathom out young people's patterns, agency, and living conditions, focusing on the relational character of the juvenile worlds actively constructed by themselves. The authors explore the main trends that are reflected in the social strategies, cultural constructions, and changes within the Arab youth population, and whether the creation of new lifestyles and the emergence of youth cultures are an indicator of sociopolitical transitions. To answer all these questions, the researchers have conducted a comprehensive study in five Arab Mediterranean countries: Algeria, Egypt, Lebanon, Morocco, and Tunisia. Based on mixed method research, the data collection is composed of two primary sources: the SAHWA Youth Survey 2016/2017, in which 10,000 young people were interviewed, and the SAHWA Ethnographic Fieldwork 2015, involving more than 200 young people.
