Joel Kotkin

Cit13:

The City Joel Kotkin, 2007-12-18 If humankind can be said to have a single greatest creation it would be those places that represent the most eloquent expression of our species's ingenuity, beliefs and ideals: the city. In this authoritative and engagingly written account, the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and in doing so attempts to answer the age-old question: What makes a city great? Despite their infinite variety, all cities essentially serve three purposes: spiritual, political, and economic. Kotkin follows the progression of the city from the early religious centers of Mesopotamia, the Indus Valley, and China to the imperial centers of the Classical era, through the rise of the Islamic city and the European commercial capitals, ending with today's post-industrial suburban metropolis. Despite widespread optimistic claims that cities are back in style, Kotkin warns that whatever their form, cities can thrive only if they remain sacred, safe, and busy, and this is true for both the increasingly urbanized developing world and the often self-possessed global cities of the West and East Asia. Looking at cities in the twenty-first century, Kotkin discusses the effects of developments such as shifting demographics and emerging technologies. He also considers the effects of terrorism; how the religious and cultural struggles of the present pose the greatest challenge to the urban future. Truly global in scope, *The City* is a timely narrative that will place Kotkin in the company of Lewis Mumford, Jane Jacobs, and other preeminent urban scholars.

Air Quality in New York City After the September 11, 2001 Attacks United States. Congress. Senate. Committee on Environment and Public Works. Subcommittee on Clean Air, Wetlands, and Climate Change, 2003

The Emerging City Scott Greer, 2018-04-17 The *Emerging City* was written at a time when the great transformation from urban to suburban lifestyle was under way. It is a tribute to Scott Greer that his work understood the new contours of the city and also well appreciated that far from spelling the end of urban life, the new developments in communication and transportation only served to change the social and political structure of modern societies. Greer established the principle that in urban affairs, public policy follows the market. The task of this fine work was to chart just how this flow took place. A careful researcher and writer, Scott Greer herein poses the largest questions of urban existence: What needs for fellowship and freedom are bedrock? What is gained and what is lost as urbanization unfolds? Can one speak of certain urban arrangements as good or bad for humans? The *Emerging City* attempts a theory of society within which the changing city could be interpreted at the social, political, and symbolic levels. The modern city is no longer an autonomous unit but very much a part of, often at the center of, national and even international developments. As Janet Abu Lughod points out in her sharp introduction, most of the themes that are now in common usage owe their beginnings to Scott Greer.

The Greek City and Its Institutions Gustave Glotz,1929 **The Rise and Fall of the City of Money** Ray Perman,2019-10-10 It started and ended with a financial catastrophe The Darien disaster of 1700 drove Scotland into union with England but spawned the institutions which transformed Edinburgh into a global financial centre The crash of 2008 wrecked the city s two largest and oldest banks and its reputation In the three intervening centuries Edinburgh became a hothouse of financial innovation prudent banking reliable insurance and smart investing The face of the city changed too as money transformed it from medieval squalor to Georgian elegance This is the story not just of the institutions which were respected worldwide but of the personalities too such as the two hard drinking Presbyterian ministers who founded the first actuarially based pension fund Sir Walter Scott who faced financial ruin but wrote his way out of it the men who financed American railways and eastern rubber plantations with Scottish money and Fred Goodwin notorious CEO of RBS who took the bank to be the biggest in the world but crashed and burned in 2008
