Colonialism And Violence In Zimbabwe:

Colonialism and Violence in Zimbabwe Heike I. Schmidt, 2013-02-21 Suffering the experience of violation brought on by an act of violence or violent circumstances is omnipresent in today's world if only indirectly through global media representation. Despite this apparent immediacy, understanding how a person makes sense of his or her suffering tends to be fragmentary and often elusive. This book examines this key question through the lens of rural Zimbabwe and a frontier area on the border with Mozambique. It shows how African women, men, and children fashioned their life worlds in the face of conflict. Historian Heike Schmidt challenges the apparently inseparable twin pairing of Africa and suffering. Even in situations of great distress, she argues, individuals and groups may articulate their social desires and political ambitions and reforge their identities as long as the experience of violence is not one of sheer terror. She emphasizes the crucial role women, chiefs, and youths played in the renegotiation of a sense of belonging during different periods of time. Based on sustained fieldwork, *Colonialism and Violence* offers a compelling history of suffering in a small valley in Zimbabwe over the course of 150 years. BR Heike Schmidt is Lecturer in Modern History, University of Reading.

Colonialism & Violence in Zimbabwe Heike Ingeborg Schmidt, 2013. A highly original treatment of significant topics in African Studies and beyond: violence, colonialism, landscape, memory, and religion.

Multidisciplinary Perspectives on Zimbabwe's Liberation Struggle Munyaradzi Nyakudya, Wesley Mwatwara, Joseph Mujere, 2022-11-15. This book provides a timely reconceptualization of Zimbabwe's anti-colonial liberation struggle, resisting simple binaries in favour of more nuanced critical analysis. Most historiographies characterize Zimbabwe's liberation struggle as being defined by simple bifurcations along racial, ethnic, class, and ideological perspectives. This book argues that the nationalist struggle is far more complex than such simple configurations would suggest, and that many actors have been overlooked in the analysis. The book broadens our understanding by analysing the roles of a wide range of political figures, organizations, and members of the military, as well as the media and the often overlooked part that women played. Over the course of the book, the contributors also reflect on the ways in which revolutionary figures have been repainted as sellouts, in particular by the ZANU PF ruling party, and what that means for the country's interpretation of their recent past. Highlighting in particular the expertise of leading scholars from within Zimbabwe, across a range of disciplines, this book will be of interest to researchers of African history, politics, and postcolonial studies.

German Colonialism in a Global Age Bradley Naranch, Geoff Eley, 2015-02-20. This collection provides a comprehensive treatment of the German colonial empire and its significance. Leading scholars show not only how the colonies influenced metropolitan life and the character of German politics during the Bismarckian and Wilhelmine eras (1871-1918) but also how colonial mentalities and practices shaped later histories during the Nazi era. In introductory essays, editors Geoff Eley and Bradley Naranch survey the historiography and broad developments in the imperial imaginary of the nineteenth and twentieth centuries. Contributors then examine a range of topics from science and the colonial state to the disciplinary

constructions of Africans as colonial subjects for German administrative control They consider the influence of imperialism on German society and culture via the mass marketing of imperial imagery conceptions of racial superiority in German pedagogy and the influence of colonialism on German anti-Semitism The collection concludes with several essays that address geopolitics and the broader impact of the German imperial experience Contributors Dirk B nker Jeff Bowersox David Ciarlo Sebastian Conrad Christian S Davis Geoff Eley Jennifer Jenkins Birthe Kundus Klaus M hlhahn Bradley Naranch Deborah Neill Heike Schmidt J P Short George Steinmetz Dennis Sweeney Brett M Van Hoesen Andrew Zimmerman

Journalism, Democracy, and Human Rights in Zimbabwe Bruce Mutsvairo, Cleophas T. Muneri, 2019-11-29
Journalism Democracy and Human Rights in Zimbabwe provides an empirical analysis of Zimbabwe's ongoing state of affairs Bruce Mutsvairo and Cleophas T Muneri examine the intersection between journalism democracy and human rights to historicize and critique past successes and failures that have played out in Zimbabwe's past as well as interrogate future challenges that await the nation's quest for democratization The authors examine what role citizen journalists human rights activists professional journalists and social media dissents could potentially play toward ending the country's current adversity Scholars of journalism media studies communication African studies and political science will find this book particularly useful

The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter-insurgent security forces has risen markedly since the Second World War just as those of conventional or inter-state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub-Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter-insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter-insurgency which began with Britain's declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti-colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it

African Music, Power, and Being in Colonial Zimbabwe Mhoze Chikowero, 2015-11-24 In this new history of music in Zimbabwe Mhoze Chikowero deftly uses African sources to interrogate the copious colonial archive reading it as a confessional voice along and against the grain to write a complex history of music colonialism and African self-liberation Chikowero's book begins in the 1890s with

missionary crusades against African performative cultures and African students being inducted into mission bands which contextualize the music of segregated urban and mining company dance halls in the 1930s and he builds genealogies of the Chimurenga music later popularized by guerrilla artists like Dorothy Masuku Zexie Manatsa Thomas Mapfumo and others in the 1970s Chikowero shows how Africans deployed their music and indigenous knowledge systems to fight for their freedom from British colonial domination and to assert their cultural sovereignty

Robert Mugabe and the Will to Power in an African Postcolony William J. Mpofu, 2021-03-04 This book is a philosopher's view into the chaotic postcolony of Zimbabwe delving into Robert Mugabe's Will to Power The Will to Power refers to a spirited desire for power and overwhelming fear of powerlessness that Mugabe artfully concealed behind performances of invincibility Nietzsche's philosophical concept of the Will to Power is interpreted and expanded in this book to explain how a tyrant is produced and enabled and how he performs his tyranny Achille Mbembe's novel concept of the African postcolony is mobilised to locate Zimbabwe under Mugabe as a domain of the madness of power The book describes Mugabe's development from a vulnerable youth who was intoxicated with delusions of divine commission to a monstrous tyrant of the postcolony who mistook himself for a political messiah This account exposes how post political euphoria about independence from colonialism and the heroism of one leader can easily lead to the degeneration of leadership However this book is as much about bad leadership as it is about bad followership Away from Eurocentric stereotypes where tyranny is isolated to African despots this book shows how Mugabe is part of an extended family of tyrants of the world He fought settler colonialism but failed to avoid being infected by it and eventually became a native coloniser to his own people The book concludes that Zimbabwe faces not only a simple struggle for democracy and human rights but a Himalayan struggle for liberation from genocidal native colonialism that endures even after Robert Mugabe's dethronement and death

Beyond the Gatekeeper State Sara Rich Dorman, 2020-11-25 Beyond the Gatekeeper State explores the dynamic changes occurring within and between African states and the international system since the turn of the century Frederick Cooper's model of gatekeeper states shaped as much by their international links as by their domestic practices provides the basis for the contributors thinking about international relations in Africa and the wider international system The chapters explore the political implications of Africa's new relations with the old super powers former colonial powers and the emerging powers from the South These new relationships reflect and affect changing technology infrastructure and resource flows within and between African states Drawing on both rich empirical cases and theoretical approaches the book interrogates the implications of these changes on how we think about states and state systems Exploring the impact of changing technology finance and resources on African politics Beyond the Gatekeeper State will be of great interest to scholars of African Politics and International Relations IR as well as African Studies IR and the politics of the Global South more broadly This book was originally published as a special issue of Third World Thematics

Orality, Literacy, and Colonialism in Southern Africa Jonathan A. Draper, 2004-01-01 Literacy is essentially about the

control of information memory and belief and with colonialism in Southern Africa came the Bible and text based literacy monitored by missionaries and colonial authorities Old and new oral traditions however are beyond the control of empire and often carry the resistance hopes and dreams of colonized people The essays in this volume recover aspects of Southern Africa's rich oral tradition The authors from disciplines such as anthropology African literature and biblical studies delineate some of the contours of the indigenous knowledge systems which sustained resistance to colonialism and today provide resources for postapartheid society in Southern Africa Paperback edition is available from the Society of Biblical Literature www.sbl-site.org
