Colonization Of Psychic Space A Psychoanalytic Social Theory Of Oppression:

The Colonization of Psychic Space Kelly Oliver, 2004 Oliver philosophy Vanderbilt U does not attempt to apply psychoanalysis to oppression Rather she transforms psychoanalytic concepts such as alienation melancholy and shame into social concepts by developing a psychoanalytic theory based on a notion of the individual or psyche that is thoroughly social The psyche and the social world are so Debunking the Myths of Colonization Samar Attar, 2010-04-13 Debunking the Myths of Colonization examines Salman Rushdie's thesis on the paradoxical nature of colonialism and its horrific impact on the psyche of the colonized It probes Frantz Fanon's theories concerning the relationship between colonizers and colonized and attempts to apply these theories to modern Arabic literature Like Rushdie and Fanon many Arab writers have embarked on a journey to the metropolis of their ex colonial masters Due to their encounter with English or French culture they have written memoirs poems or fictions in which they have represented themselves and the other Their representations differ markedly according to their own make up as human beings their class education experiences and gender Yet what brings them together is their love hate relationship with the ex colonizer In the case of the Palestinian writers however there is only bitterness and bewilderment at Israel as a colonizing power in the 21st century and its Jewish citizens who were once victims in Europe but now have turned into victimizers

Kristeva Stacey Keltner, 2013-05-03 Julia Kristeva is one of the most creative and prolific writers to address the personal social and political trials of our times Linguist psychoanalyst social and cultural theorist and novelist Kristeva's broad interdisciplinary appeal has impacted areas across the humanities and social sciences S K Keltner's book provides the first comprehensive introduction to the breadth of Kristeva's work In an original and insightful analysis Keltner presents Kristeva's thought as the coherent development and elaboration of a complex multidimensional threshold constitutive of meaning and subjectivity The threshold indicates Kristeva's primary sphere of concern the relationship between the speaking being and its particular social and historical conditions and Kristeva's interdisciplinary approach Kristeva's vision Keltner argues opens a unique perspective within contemporary discourses attentive to issues of meaning subjectivity and social and political life By emphasizing Kristeva's attention to the permeable borders of psychic and social life Keltner offers innovative readings of the concepts most widely discussed in Kristeva scholarship the semiotic and symbolic abjection love and loss She also provides new interpretations of some of the most controversial issues surrounding Kristeva's work including Kristeva's conceptions of intimacy social and cultural difference and Oedipal subjectivity by contextualizing them within her methodological approach and oeuvre as a whole Julia Kristeva Thresholds is an engaging and accessible introduction to Kristeva's theoretical and fictional works that will be of interest to both students and scholars across the humanities and social sciences

Psychoanalysis and Colonialism Sally Swartz, 2022-09-23 Within this important and insightful book Sally Swartz introduces readers to early entanglements of psychoanalytic theory with colonialism and how it has led to significant and long lasting implications for psychoanalysis

Psychoanalysis and Colonialism is unique in drawing together a wide array of sources and a span of history from the beginnings of psychoanalysis to current theory and practice. The book explores ways in which Freudian theory incorporated the idea of the primitive into the centre of mapping the untamed territories of the unconscious via notions of taming instinctual excess, civilizing the primitive and conquering and bringing order to wildness. The text describes the influences of colonialism on the thinking of Freud and Jung and goes on to describe anti-colonial voices including C. S. Lewis and Mannoni, Memmi and Fanon and their contribution to psychoanalytic theory. It concludes with thoughts on the challenges of decolonizing psychoanalysis. This book is an accessible account of the links between colonialism and psychoanalysis and is suitable for general readers with an interest in the topic as well as all psychoanalytic practitioners grappling with the ways in which issues of race, class, gender and sexuality affect their ways of working and writing. *The Violence of Victimhood*

Diane Enns, 2015-08-06. We know that violence breeds violence. We need look no further than the wars in the western Balkans, the genocide in Rwanda or the ongoing crisis in Israel and Palestine. But we don't know how to deal with the messy moral and political quandaries that result when victims become perpetrators. When the line between guilt and innocence wavers and we are confronted by the suffering of the victim who turns to violence, judgment may give way to moral relativism or liberal tolerance, compassion to a pity that denies culpability. This is the point of departure in *The Violence of Victimhood* and the impetus for its call for renewed considerations of responsibility, judgment, compassion and nonviolent politics. To address her provocative questions, Diane Enns draws on an unusually wide-ranging cast of characters from the fields of feminism, philosophy, peacebuilding, political theory and psychoanalysis. In the process, she makes an original contribution to each enriching discussion that are otherwise constricted by disciplinary boundaries and an arid distinction between theory and practice. **The Culture of Confession from Augustine to Foucault**

Chloe Taylor, 2010-05-26. This book is a genealogical study of confession. Drawing on the work of Michel Foucault as well as the history of Western confessional writings from Ancient Greece to contemporary pop culture, this book challenges the transhistorical and commonsense views of confession as an innate impulse resulting in the psychological liberation of the confessing subject. On the contrary, confessional desire is argued to be contingent and constraining, and alternatives to confessional subjectivity are explored. Marina Warner and the Ethics of Telling Silenced Stories Lisa Propst, 2020-12-17. Efforts to fight back against silencing are central to social justice movements and scholarly fields such as feminist and postcolonial studies. But claiming to give voice to people who have been silenced always risks appropriating those people's stories. Lisa Propst argues that the British novelist and public intellectual Marina Warner offers some of the most provocative contemporary interventions into this dilemma. Tracing her writing from her early journalism to her novels, short stories and studies of myths and fairy tales, Propst shows that in Warner's work, features such as stylized voices and narrative silences, tales that Warner's books hint at but never tell, question the authority of the writer to tell other people's stories. At the same time, they demonstrate the power of literature to make new

ethical connections between people inviting readers to reflect on whom they are responsible to and how they are implicated in social systems that perpetuate silencing By exploring how to combat silencing through narrative without reproducing it Marina Warner and the Ethics of Telling Silenced Stories takes up an issue crucial not just to literature and art but to journalists policy makers human rights activists and all people striving to formulate their own responses to injustice

Augustine and Frontiers of Pluralism Boleslaw Z. Kabala, Thomas P. Harmon, Ashleen Menchaca-Bagnulo, 2025-05-14 This book focuses on St Augustine as a worthwhile resource for thinking through the challenges and prospects of pluralism The contributors speak to several dimensions of this organizing concept understanding of which is advanced by engagement with Augustine The volume brings together scholars from different disciplines faith traditions and political commitments all of whom have deemed it worthwhile to return to Augustine to learn about a signature theme of common life in the twenty first century The chapters address a variety of topics including civic engagement feminism Black religious thought domination liberalism and time In an age of pluralism the hope is to access the insights of the thinker who struggled with a plurality of desires motivations and political theological imaginations and to benefit from his thoughts The book will be of particular interest to scholars of theology philosophy and political science

The Child in Question Julie C. Garlen, Lisa

Farley, 2021-05-14 What is a child The concept of childhood is so familiar that we tend to assume its universality However the meaning of childhood is always being negotiated not only by the imaginations of adults but also by nations markets history and children themselves Yet as much as the question is considered by the social world the contributions in this book remind readers that children are also active embodied and inquiring agents engaged in figuring a relationship with that the world they inherit This book s unifying theme The child in question emerges from an assertion that childhood has boundaries far more elastic than can be held by the familiar notion of the innocent child developing toward a heteronormative future The title pays homage to the work of sociologist Diana Gittins who over twenty years ago asked how the shifting meanings of children and childhood impact the lives of children The contributions of this book examine contemporary educational policy and practice curriculum material literary and visual representations and teacher narratives to further probe how and why it matters that childhood as a concept and experience remains as multiple and elusive as ever The chapters in this book were originally published as a special issue of the journal Curriculum Inquiry
