Representations and Othering in Discourse Beyza Ç Tekin,2010 This volume examines the construction of Turkey's possible European Union accession in French political discourse In today's France heated debates regarding Turkey's EU membership are turning into an essential part of European identity formation Once again the Turkish Other functions as a mirror for defining not only the European Self but also European values By providing a genuine and multi disciplinary approach for studying the Otherness attributed to Turkey this book contributes to our understanding of the Self Other nexus in International Relations Within a Critical Discourse Analysis framework this study explores the socio historical basis of the construction of Turkey's Otherness in an attempt to identify the processes through which past memories representations images and fantasies regarding Turkey are inserted into the French social imaginary Focusing on these significations which are re produced and become manifest through language this book strives to uncover the link between discourse and political action Beyza Tekin's book helps us make sense of the complexities in an unusually detailed and explicit way by deploying the sophisticated techniques we now have for the analysis of discourse This is a book with historical depth It is also a book that offers precise analysis Historians sociologists policymakers as well as discourse analysts all have much to learn from this book Paul Chilton University of Lancaster This is an original and insightful study of the construction of Turkey in French political discourse and offers a valuable analysis of the formation of European identity Gerard Delanty University of Sussex From the Saracen slayer to the ally of renaissance Kings to civilisation's apprentice to hotly contested EU applicant here the changing social fact of Turkey in French discourse is given its fullest treatment to date Iver B Neumann author of *Uses of the Other the East in European Identity Formation* A Pragmatic Analysis of Legal Proofs of Criminal Intent Sol

Azuelos-Atias,2007-07-26 *A Pragmatic Analysis of Legal Proofs of Criminal Intent* is a detailed investigation of proofs of criminal intent in Israeli courtrooms The book analyses linguistic pragmatic interpretative and argumentative strategies used by Israeli lawyers and judges in order to examine the defendant's intention There can be no doubt that this subject is worthy of a thorough investigation A person's intention is a psychological phenomenon and therefore unless the defendant chooses to confess his intent it cannot be proven directly either by evidence or by witnesses testimonies The defendant's intention must be inferred usually from the overall circumstances of the case verbal and situational contexts cultural and ideological assumptions and implicatures should be taken into account The linguistic analysis of these inferences presented here is necessarily comprehensive it requires consideration of a variety of theoretical frameworks including speech act theory discourse analysis argumentation theory polyphony theory and text linguistics **Arab News and Conflict** Samia

Bazzi,2009-10-22 The Arab Israeli struggle is not only a struggle over land but a struggle over language representations Arab reporters as well as politicians believe that their political discourses about the Middle East conflict are objective accurate

and credible Arab News and Conflict critically examines the role of language in the representations of events and ideologies found in news media Drawing on socio political linguistic approaches combined with real case studies the author offers a unique discourse analysis model for analysing politically sensitive language in the media The focus in this study is on the Arab media discourse in times of conflict with Israel and the US spanning the years 2001 to 2009 Using rich examples from outspoken Arab media outlets the study explores ideological and language facts about the Arab Israeli conflict This book is compelling reading for students and researchers of media and cultural studies discourse analysis and sociolinguistics and translation It is of equal interest to political analysts political speakers journalists and news editors who need to understand more about the ideological function of the language they use or the political journalistic linguistic nexus of power The Art of Commemoration Titus Ensink, Christoph Sauer, 2003-01-01 The Art of Commemoration focuses on a particular historical event that illustrates how nations define their own identities and establish mutual relations in their discourse the Warsaw Uprising of August 1944 and its Commemoration in 1994 This Commemoration was an innovative and unique form of transnational communication because it brought together representative speakers from all parties involved They considered the commemorated event from different perspectives the victim Poland the former enemy Germany and the former allies England USA France and other countries as well as Russia which liberated Poland but had not supported the Uprising A letter from the Pope added a Catholic perspective The art of commemoration consists in invoking the past events from one's own perspective while simultaneously considering the other perspectives as well as in making sense of the past and present at the same time This volume analyses the artful way in which the speakers coped with these complexities in a full discourse analytic reconstruction of each address
