Crowded By Beauty The Life And Zen Of Poet Philip Whalen:

Crowded by Beauty David Schneider, 2015-07-26 Philip Whalen was an American poet Zen Buddhist and key figure in the literary and artistic scene that unfolded in San Francisco in the 1950s and 60s. When the Beat writers came West, Whalen became a revered, much-loved member of the group. Erudite, shy, and profoundly spiritual, his presence not only moved his immediate circle of Beat cohorts but his powerful, startling, innovative work would come to impact American poetry to the present day. Drawing on Whalen's journals and personal correspondence, particularly with Ginsberg, Kerouac, Snyder, Kyger, Welch, and McClure, David Schneider shows how deeply bonded these intimates were, supporting one another in their art and their spiritual paths. Schneider himself, an ordained priest, provides an insider's view of Whalen's struggles and breakthroughs in his thirty years as a Zen monk. When Whalen died in 2002, as the retired Abbot of the Hartford Street Zen Center, his own teacher referred to him as a patriarch of the Western lineage of Buddhism. *Crowded by Beauty* chronicles the course of Whalen's life, focusing on his unique, eccentric, humorous, and literary religious practice.

The Beats, Black Mountain, and New Modes in American Poetry Matt Theado, 2021-09-15 *The Beats, Black Mountain, and New Modes of American Poetry* explores correspondences amongst the Black Mountain and Beat Generation writers, two of the most well-known and influential groups of poets in the 1950s. The division of writers as Beat or Black Mountain has hindered our understanding of the ways that these poets developed from mutual influences, benefitted from direct relations, and overlapped their boundaries. This collection of academic essays refines and adds context to Beat Studies and Black Mountain Studies by investigating the groups' intersections and undercurrents. One goal of the book is to deconstruct the Beat and Black Mountain labels in order to reveal the shifting and fluid relationships among the individual poets who developed a revolutionary poetics in the 1950s and beyond. Taken together, these essays clarify the radical experimentation with poetics undertaken by these poets.

The Spiritual Imagination of the Beats David Stephen Calonne, 2017-08-17 *The Spiritual Imagination of the Beats* is the first comprehensive study to explore the role of esoteric, occult, alchemical, shamanistic, mystical, and magical traditions in the work of eleven major Beat authors. The opening chapter discusses Kenneth Rexroth and Robert Duncan as predecessors and important influences on the spiritual orientation of the Beats. David Stephen Calonne draws comparisons throughout the book between various approaches individual Beat writers took regarding sacred experience. For example, Burroughs had significant objections to Buddhist philosophy, while Allen Ginsberg and Jack Kerouac both devoted considerable time to studying Buddhist history and texts. This book also focuses on authors who have traditionally been neglected in Beat Studies: Diane di Prima, Bob Kaufman, Philip Lamantia, and Philip Whalen. In addition, several understudied works such as Gregory Corso's *The Geometric Poem*, inspired by Corso's deep engagement with ancient Egyptian thought, are given close attention. Calonne introduces important themes from the history of heterodoxy, from Gnosticism, Manichaeism, and Ismailism to Theosophy and Tarot, and demonstrates how inextricably these ideas shaped the Beat literary imagination.
