Cruel & Unusual John D. Bessler, 2012 This indispensable history of the Eighth Amendment and the founders views of capital punishment is also a passionate call for the abolition of the death penalty based on the notion of cruel and unusual punishment

The Death Penalty's Denial of Fundamental Human Rights John Bessler, 2022-12-15 The Death Penalty's Denial of Fundamental Human Rights details how capital punishment violates universal human rights to life to be free from torture and other forms of cruelty to be treated in a non arbitrary non discriminatory manner and to dignity In tracing the evolution of the world's understanding of torture which now absolutely prohibits physical and psychological torture the book argues that an immutable characteristic of capital punishment already outlawed in many countries and American states is that it makes use of death threats Mock executions and other credible death threats in fact have long been treated as torturous acts When crime victims are threatened with death and are helpless to prevent their deaths for example courts routinely find such threats inflict psychological torture With simulated executions and non lethal corporal punishments already prohibited as torturous acts death sentences and real executions the book contends must be classified as torturous acts too

The Slow Death of the Death Penalty Todd C. Peppers, Jamie Almallen, Mary Welek Atwell, 2025-07-01 Why the death penalty is in decline across the United States Across the country the death penalty is dying Twenty two states have abandoned state sanctioned executions including nine in the last fifteen years Of the twenty eight states that still have the death penalty eight have not had an execution in over a decade And public support for the death penalty has declined from 80% of the surveyed population in the early 1990s to approximately 50% today As the death penalty slowly withers away Todd C Peppers Jamie Almallen and Mary Welek Atwell bring together a number of distinguished death penalty scholars activists and attorneys to take an accounting of the damage inflicted by the machinery of death Contributors to the book point to a range of different pathologies which have caused politicians and voters to turn against capital punishment from unacceptable rates of false convictions and racially motivated prosecutions to a clemency process poisoned by political factors Essay topics include various dimensions of the death penalty including racial and gender bias economic costs the conviction of juveniles the mentally ill and the factually innocent Supreme Court decisions and the failure of the death penalty to serve as a deterrent against crime This important volume is an up to date accounting of the current state and as the contributors argue the future demise of the death penalty
