Digging Up Ghosts Unearthing Past Presences At A Haunted Location:

Digging Up Ghosts: Unearthing Past Presences at a Haunted Location John Sabol, 2013-02-12 There are many ways of understanding and documenting the remains of past material presence in contemporary society One is archaeology We understand and document remains through contextual excavations Another is anthropology accomplished by our participation observation practices when we immerse ourselves in other cultures Still another is performance studies The past is revealed through a theatrical ghosting and fictive memory practices In a ghost excavation I use all three disciplinary approaches to unearth interactive past presence The recovery process of this dead presence is achieved through a P O P Participate Observe Perform methodology organized around immediate field reveals NOT post excavation analysis The result is a unique vision of contemporary reality This reality is more than a phantom universe It involves an unfolding of time a symmetrical space of horizontal stratigraphy and a past that is not dead These interactive material remains are NOT historical artifacts something past They are continuing memory practices enacted by dead individuals someone present Specific case examples A Civil War battlefield an historic mansion a classic haunting illustrate this process of recovery as it is unearthed in the field John G Sabol Jr *The Haunted Actor* Alex Matsuo, 2014 With the paranormal becoming so mainstream in the last decade between television books and movies is the craze actually brand new Before there was the entertainment industry that we know of today plays and musicals were one of the primary forms of expression and reflections of society's beliefs of their time This book will cover an analysis of the belief in the supernatural throughout the course of humanity's existence and showing that in a way the paranormal has always been normal Using elements of theatre as the research vehicle as well as establishing the relationship between acting and the unknown this book examines the rich relationship between theatre and the paranormal Finally this book will challenge the reader to consider the possibility of using theatre as a method for researching and investigating the paranormal Readers will be asked to consider what would happen if investigators and ghost hunters took on the role of an actor and the haunted location becomes a performance space thus welcoming communication and activity from the other side
