Data Integration Framework Information Visualization:

Information Visualization in Data Mining and Knowledge Discovery Usama M. Fayyad, Georges G. Grinstein, Andreas Wierse, 2002 This text surveys research from the fields of data mining and information visualisation and presents a case for techniques by which information visualisation can be used to uncover real knowledge hidden away in large databases

Intuitive Human Interfaces for Organizing and Accessing Intellectual Assets Gunter Grieser, Yuzuru Tanaka, 2005-02-09 This book constitutes the thoroughly refereed post proceedings of the 2004 International Workshop on Intuitive Human Interfaces for Organizing and Accessing Intellectual Assets held in Dagstuhl Castle Germany in March 2004 The 17 revised full papers presented together with an introductory overview have gone through two rounds of reviewing and revision The papers are organized in topical sections on man machine interface for intuitive knowledge access intelligent pad and meme media visualization and design of information access spaces and semantics and narrative organization and access of knowledge

From Integrated Publication and Information Systems to Information and Knowledge Environments Matthias Hemmje, Claudia Niederee, Thomas Risse, 2005-01-31 This book constitutes a commemorative volume devoted to Erich J Neuhold on the occasion of his 65th birthday The 32 invited reviewed papers presented are written by students and colleagues of Erich Neuhold throughout all periods of his scientific career The papers are organized in the following topical sections Database management enabling information systems Semantic Web drivers for advanced information management Securing dynamic media content integration From digital libraries to intelligent knowledge environments Visualization key to external cognition in virtual information environments From human computer interaction to human artefact interaction Domains for virtual information and knowledge environments

Data Integration in the Life Sciences Norman W. Paton, Paolo Missier, Cornelia Hedeler, 2009-07-21 Data integration in the life sciences continues to be important but challenging The ongoing development of new experimental methods gives rise to an increasingly wide range of data sets which in turn must be combined to allow more integrative views of biological systems Indeed the growing prominence of systems biology where mathematical models characterize behaviors observed in experiments of different types emphasizes the importance of data integration to the life sciences In this context the representation of models of biological behavior as data in turn gives rise to challenges relating to provenance data quality annotation etc all of which are associated with significant research activities within computer science The Data Integration in the Life Sciences DILS Workshop Series brings together data and knowledge management researchers from the computer science research community with bioinformaticians and computational biologists to improve the understanding of how emerging data integration techniques can address requirements identified in the life sciences

The Craft of Information Visualization Benjamin B. Bederson, Ben Shneiderman, 2003-05-22 Since the beginning of the computer age researchers from many disciplines have sought to facilitate people's use of computers and to provide ways for scientists to make sense of the immense quantities of data

coming out of them One gainful result of these efforts has been the field of information visualization whose technology is increasingly applied in scientific research digital libraries data mining financial data analysis market studies manufacturing production control and data discovery This book collects 38 of the key papers on information visualization from a leading and prominent research lab the University of Maryland's Human Computer Interaction Lab HCIL Celebrating HCIL's 20th anniversary this book presents a coherent body of work from a respected community that has had many success stories with its research and commercial spin offs Each chapter contains an introduction specifically written for this volume by two leading HCI researchers to describe the connections among those papers and reveal HCIL's individual approach to developing innovations Presents key ideas novel interfaces and major applications of information visualization tools embedded in inspirational prototypes Techniques can be widely applied in scientific research digital libraries data mining financial data analysis business market studies manufacturing production control drug discovery and genomic studies Provides an insider view to the scientific process and evolution of innovation as told by the researchers themselves This work comes from the prominent and high profile University of Maryland's Human Computer Interaction Lab

Interactive GPU-based Visualization of Large Dynamic Particle Data Martin Falk, Sebastian Grottel, Michael Krone, Guido Reina, 2022-05-31 Prevalent types of data in scientific visualization are volumetric data vector field data and particle based data Particle data typically originates from measurements and simulations in various fields such as life sciences or physics The particles are often visualized directly that is by simple representants like spheres Interactive rendering facilitates the exploration and visual analysis of the data With increasing data set sizes in terms of particle numbers interactive high quality visualization is a challenging task This is especially true for dynamic data or abstract representations that are based on the raw particle data This book covers direct particle visualization using simple glyphs as well as abstractions that are application driven such as clustering and aggregation It targets visualization researchers and developers who are interested in visualization techniques for large dynamic particle based data Its explanations focus on GPU accelerated algorithms for high performance rendering and data processing that run in real time on modern desktop hardware Consequently the implementation of said algorithms and the required data structures to make use of the capabilities of modern graphics APIs are discussed in detail Furthermore it covers GPU accelerated methods for the generation of application dependent abstract representations This includes various representations commonly used in application areas such as structural biology systems biology thermodynamics and astrophysics

Design, User Experience, and Usability Martin Schrepp, 2025-06-06 This six volume set LNCS 15794 15799 constitutes the refereed proceedings of the 14th International Conference on Design User Experience and Usability DUXU 2025 held as part of the 27th International Conference on Human Computer Interaction HCII 2025 in Gothenburg Sweden during June 22 27 2025 The total of 1430 papers and 355 posters included in the HCII 2025 proceedings was carefully reviewed and selected from 7972 submissions The six volumes cover the following topics Part I
