Developing Cultures Lawrence E. Harrison, Jerome Kagan, 2013-05-13 *Developing Cultures* Essays on Cultural Change is a collection of 21 expert essays on the institutions that transmit cultural values from generation to generation The essays are an outgrowth of a research project begun by Samuel Huntington and Larry Harrison in their widely discussed book *Culture Matters* the goal of which is guidelines for cultural change that can accelerate development in the Third World The essays in this volume cover child rearing several aspects of education the world's major religions the media political leadership and development projects The book is companion volume to *Developing Cultures Case Studies* 0415952808

The Sharia State Bassam Tibi, 2013-07-18 Set against the backdrop of the Arab Spring *The Sharia State* examines the Islamist concept of political order This order is based on a new interpretation of sharia and has been dubbed the Islamic state by Islamists The concept of the Islamic state has been elevated to a political agenda and it is this agenda that is examined here In contrast to the prevailing view which sees the Arab Spring as a revolution this book argues that the phenomenon has been neither a Spring nor a revolution The term Arab Spring connotes a just rebellion that led to toppling dictators and authoritarian rulers yet in *The Sharia State* Bassam Tibi challenges the unchecked assumption that the seizure of leadership by Islamists is a part of the democratization of the Middle East Providing a new perspective on the relationship between the Arab Spring and democratization this book is an essential read for students and scholars of Middle Eastern Studies Islamic Studies and Politics

Culture Matters in Russia—and Everywhere Lawrence Harrison, Evgeny Yasin, 2015-04-23 This book pulls together experts in the fields of economics and Russian culture all participants in the Samuel P Huntington Memorial Symposium on Culture Cultural Change and Economic Development a follow up to the 1999 Cultural Values and Human Progress Symposium at Harvard University As the sequel to the 2001 volume *Culture Matters* it discusses modernization democratization economic and political reforms in Russia and asserts that these reforms can happen through the reframing of cultural values attitudes and institutions Cover design by Katie Makrie

Aid for Elites Mark Moyer, 2016-02-01 Current foreign aid programs are failing because they are based upon flawed assumptions about how countries develop They attempt to achieve development without first achieving good governance and security which are essential prerequisites for sustainable development In focusing on the poorer members of society they neglect the elites upon whose leadership the quality of governance and security depends By downplaying the relevance of cultural factors to development they avoid altering cultural characteristics that account for most of the weaknesses of elites in poor nations Drawing on a wealth of examples from around the world the author shows that foreign aid can be made much more effective by focusing it on human capital development Training education and other forms of assistance can confer both skills and cultural attributes on current and future leaders especially those responsible for security and governance

The Hidden Form of Capital Peter L. Berger, Gordon Redding, 2011-10-01 *The Hidden Form of Capital* presents evidence from several

parts of the changing world about how the realm of the spirit affects the economy Instead of adding to the theoretical speculation on the role of culture in economic progress this book provides evidence from recent analytical studies in Europe Asai Africa Russia and the United States

The Central Liberal Truth Lawrence E. Harrison,2006-05-01 Which cultural values beliefs and attitudes best promote democracy social justice and prosperity How can we use the forces that shape cultural change such as religion education and political leadership to promote these values in the Third World and for underachieving minorities in the First World In this book Lawrence E Harrison offers intriguing answers to these questions in a valuable follow up to his acclaimed Culture Matters Drawing on a three year research project that explored the cultural values of dozens of nations from Botswana Sweden and India to China Egypt and Chile Harrison offers a provocative look at values around the globe revealing how each nation s culture has propelled or retarded their political and economic progress The book presents 25 factors that operate very differently in cultures prone to progress and those that resist it including one s influence over destiny the importance attached to education the extent to which people identify with and trust others and the role of women in society Harrison pulls no punches and many of his findings are controversial Contradicting the arguments of multiculturalists this book contends that when it comes to promoting human progress some cultures are clearly more effective than others It convincingly shows which values beliefs and attitudes work and how we can foster them Harrison takes up the question that is at the center of politics today Can we self consciously change cultures so they encourage development and modernization David Brooks New York Times I can think of no better entrance to the topic both for what it teaches and the way it invites and prepares the reader to continue A gateway study David S Landes author of The Wealth and Poverty of Nations

The Impact of Culture on Tourism OECD,2008-12-16 The Impact of Culture on Tourism examines the growing relationship between tourism and culture and the way in which they have together become major drivers of destination attractiveness and competitiveness

Political Islam, World Politics and Europe Bassam Tibi,2008-03-25 Is political Islam compatible with democracy The rise of political Islam as a force in world politics has prompted questions and theories concerning its nature and compatibility with democratic values Not least have been discussions and conflicts within Islamic communities particularly in Europe where choices of identity and allegiance are growing acute Bassam Tibi provides a broad ranging assessment of political Islam in the world in all its various manifestations In particular he focuses on Europe which is also home to a significant Islamic minority Whilst rejecting the Clash of Civilizations theory the author clearly demonstrates the growing conflict and incompatibility between Islamist movements and European democracy A practicing Muslim himself Bassam Tibi makes clear the vital importance of developing a Euro Islam that will peacefully accommodate religious beliefs within an inclusive democratic European culture

Resources in Education ,1998 *Media Management* Jan Wicks LeBlanc,George Sylvie,Jan Wicks, LeBlanc,C. Ann Hollifield,Stephen Lacy,Ardyth Sohn, Broadrick,2014-04-04 Media Management A Casebook Approach provides a detailed
