Diagnosis Critical The Urgent Threats Confronting Catholic Health Care:

Diagnosis Critical Leonard J. Nelson, 2009 The pressure for Catholic medical institutions and healthcare workers is mounting at an alarming rate as individuals struggle to uphold their faith in an industry that is confronting new bioethical dilemmas in a political and cultural environment that is increasingly hostile to traditional Catholic teachings The choice to provide or not provide contraception abortion controversial fertility procedures and even euthanasia have now begun to take on legal ramifications as Catholic facilities seek to maintain their tax exempt status and their eligibility for federal funding It is an all too real danger that Catholic medical centers even those in communities where medical care is scarce may be forced to either shut down or provide immoral procedures while tens of thousands of Catholic doctors nurses pharmacists and other medical professionals could be forced to quit their jobs or violate their religious beliefs **Catholic Identity Or Identities?** Gerald A. Arbuckle, 2013 How can Catholic leaders effectively train and form members of our institutions in the Gospel values that are the ultimate foundation of Catholic identities Internationally recognized author educator and facilitator Gerald A Arbuckle argues that it is time to acknowledge that the programs and processes used in the past are inadequate to our postmodern age The systems previously used to educate the staffs of our hospitals universities schools and other institutions rarely succeed today Although didactic teaching and discursive learning have their place they cannot be the primary method for forming identities Catholic Identity or Identities will assist a wide range of people bishops theologians pastoral workers institutional leaders and staffs and more in their various ministries Arbuckle draws on several disciplines including Scripture theology and history but in particular cultural anthropology to explain the importance of refounding adult formation for Catholic ministries and the practical ways to achieve it Humanizing Healthcare Reforms Gerald A. Arbuckle, Maria Theresa Ho, 2012-10-01 This book looks at the current turmoil facing contemporary healthcare systems worldwide which has resulted from relentless reorganization being imposed upon them and argues for a return to a values based approach to healthcare Writing from the unique and fresh perspective of social anthropology the author takes a highly logical approach to practice and emphasizes the importance of values such as compassion solidarity and social justice He stipulates that without being able to clearly identify the values and goals that unite its members healthcare organizations are unlikely to be able to meet the demands of the constant and varied pressures they face and explains how individuals at every level in healthcare can contribute to positive change within their organizations This much needed and highly accessible book will be essential reading for anyone interested in healthcare reform from clinicians and nurses to managers and policy makers as well as the interested reader **Abuse and Cover-Up** Arbuckle, Gerald A., 2019-09-26 Written for readers deeply concerned for the future of the church this book seeks to answer two questions Why is the culture of the Catholic Church despite Vatican II s emphasis on collegiality and transparency still prone to covering up abuses of power How can this culture change in order to move forward A timely book on the sex abuse crisis by a scholar who is adept at weaving insights from the social sciences

into a framework of practical theology **Birth Control** Margaret Haerens, 2014-02-20 Present your readers with a collection of essays that examines the issue of birth control from a variety of international perspectives Readers will travel to China Iran Madagascar Nigeria Canada Senegal India Afghanistan Japan the Philippines and other places to understand new perspectives on birth control Readers will learn about population growth politics social and religious factors and the economics of birth control access Essay sources include Martha Campbell Tania Branigan Palash R Ghosh Jing Zhang and Raul Irani *African Women and the Shame and Pain of Infertility* Damasus C. Okoro, 2020-06-24 In *African Women and the Shame and Pain of Infertility* An Ethico Cultural Study of Christian Response to Childlessness among the Igbo People of West Africa Okoro discusses the shipwreck that is associated with infertility in marriage in Africa Within this space childlessness places a big question mark on a woman's femininity and the self esteem of the man The stigma of infertility most often leads to social isolation and humiliation particularly of married women even when the source of infertility may not have come from them Unfortunately this situation goes against the highly valued Igbo ethical principle of *onye aghala nwanne ya* meaning no kith or kin should be left behind Therefore the purpose of the book is to help married people in Igbo land and Africa at large to appropriate this indigenous principle in their response to the problem of infertility To attain this the author critically evaluates discrimination and oppression of infertile couples particularly women and shedding light on the paradoxes found in Igbo cultural expressions He employs a constructive ethical cultural religious contextual and theological approach that explores important Igbo religious paradigms like *Chi* an Igbo religious cultural understanding of personal destiny and *Ani* the feminine deity in charge of the land and fertility to argue the case for the liberation and integration of infertile couples
