Daughter Of Good Fortune A Twentieth Century Chinese Peasant Memoir:

Daughter of Good Fortune Chen Huiqin, 2015-04-01 Daughter of Good Fortune tells the story of Chen Huiqin and her family through the tumultuous 20th century in China She witnessed the Japanese occupation during World War II the Communist Revolution in 1949 and its ensuing Land Reform the Great Leap Forward the Cultural Revolution and the Reform Era Chen was born into a subsistence farming family became a factory worker and lived through her village's relocation to make way for economic development Her family's story of urbanization is representative of hundreds of millions of rural Chinese

Ten Lessons in Modern Chinese History Zheng Yangwen, 2018-04-25 This book is a timely and solid portrait of modern China from the First Opium War to the Xi Jinping era Unlike the handful of existing textbooks that only provide narratives this textbook fashions a new and practical way to study modern China Written exclusively for university students A level or high school teachers and students it uses primary sources to tell the story of China and introduces them to existing scholarship and academic debate so they can conduct independent research for their essays and dissertations This book will be required reading for students who embark on the study of Chinese history politics economics diaspora sociology literature cultural urban and women's studies It would be essential reading to journalists NGO workers diplomats government officials businessmen and travellers

Governing the Dead Linh D. Vu, 2021-08-15 In Governing the Dead Linh D Vu explains how the Chinese Nationalist regime consolidated control by honoring its millions of war dead allowing China to emerge rapidly from the wreckage of the first half of the twentieth century to become a powerful state supported by strong nationalistic sentiment and institutional infrastructure The fall of the empire internecine conflicts foreign invasion and war related disasters claimed twenty to thirty million Chinese lives Vu draws on government records newspapers and petition letters from mourning families to analyze how the Nationalist regime's commemoration of the dead and compensation of the bereaved actually fortified its central authority By enshrining the victims of violence as national ancestors the Republic of China connected citizenship to the idea of the nation promoting loyalty to the imagined community The regime constructed China's first public military cemetery and hundreds of martyrs shrines collectively mourned millions of fallen soldiers and civilians and disbursed millions of yuan to tens of thousands of widows and orphans The regime thus exerted control over the living by creating the state apparatus necessary to manage the dead Although the Communist forces prevailed in 1949 the Nationalists had already laid the foundation for the modern nation state through their governance of dead citizens The Nationalist policies of glorifying and compensating the loyal dead in an age of catastrophic destruction left an important legacy violence came to be celebrated rather than lamented

Childhood by Design Megan Brandow-Faller, 2018-04-19 Informed by the analytical practices of the interdisciplinary material turn and social historical studies of childhood Childhood By Design Toys and the Material Culture of Childhood offers new approaches to the material world of childhood and design culture for children This volume situates toys and design culture for children within broader narratives on history art design

and the decorative arts where toy design has traditionally been viewed as an aberration from more serious pursuits The essays included treat toys not merely as unproblematic reflections of socio cultural constructions of childhood but consider how design culture actively shaped commodified and materialized shifting discursive constellations surrounding childhood and children Focusing on the new array of material objects designed in response to the modern invention of childhood what we might refer to as objects for a childhood by design Childhood by Design explores dynamic tensions between theory and practice discursive constructions and lived experience as embodied in the material culture of childhood Contributions from and between a variety of disciplinary perspectives including history art history material cultural studies decorative arts design history and childhood studies are represented critically linking historical discourses of childhood with close study of material objects and design culture Chronologically the volume spans the 18th century which witnessed the invention of the toy as an educational plaything and a proliferation of new material artifacts designed expressly for children s use through the 19th century expansion of factory based methods of toy production facilitating accuracy in miniaturization and a new vocabulary of design objects coinciding with the recognition of childhood innocence and physical separation within the household towards the intersection of early 20th century child centered pedagogy and modernist approaches to nursery and furniture design through the changing consumption and sales practices of the postwar period marketing directly to children through television film and other digital media and into the present where the line between the material culture of childhood and adulthood is increasingly blurred
