Best,2013-10-24 The Great Migration was the most significant event in black life since emancipation and Reconstruction *Passionately Human No Less Divine* analyzes the various ways black southerners transformed African American religion in Chicago during their Great Migration northward A work of religious urban and social history it is the first book length analysis of the new religious practices and traditions in Chicago that were stimulated by migration and urbanization The book illustrates how the migration launched a new sacred order among blacks in the city that reflected aspects of both Southern black religion and modern city life This new sacred order was also largely female as African American women constituted more than 70 percent of the membership in most black Protestant churches Ultimately Wallace Best demonstrates how black southerners imparted a folk religious sensibility to Chicago s black churches In doing so they ironically recast conceptions of modern urban African American religion in terms that signified the rural past In the same way that working class cultural idioms such as jazz and the blues emerged in the secular arena as a means to represent black modernity he says African American religion in Chicago with its negotiation between the past the present rural and urban revealed African American religion in modern form *Workers on Arrival* Joe William Trotter,2021-01-19 An eloquent and essential correction to contemporary discussions of the American working class The Nation From the ongoing issues of poverty health housing and employment to the recent upsurge of lethal police community relations the black working class stands at the center of perceptions of social and racial conflict today Journalists and public policy analysts often discuss the black poor as consumers rather than producers as takers rather than givers and as liabilities instead of assets In his engrossing history *Workers on Arrival* Joe William Trotter Jr refutes these perceptions by charting the black working class s vast contributions to the making of America Covering the last four hundred years since Africans were first brought to Virginia in 1619 Trotter traces the complicated journey of black workers from the transatlantic slave trade to the demise of the industrial order in the twenty first century At the center of this compelling fast paced narrative are the actual experiences of these African American men and women A dynamic and vital history of remarkable

contributions despite repeated setbacks *Workers on Arrival* expands our understanding of America's economic and industrial growth its cities ideas and institutions and the real challenges confronting black urban communities today **The Present State of Scholarship in the History of Rhetoric** Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions *The Present State of Scholarship in Historical and Contemporary Rhetoric* has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric *The Present State of Scholarship in the History of Rhetoric* doesn't simply update but rather recasts study in the history of rhetoric The authors experienced and well known scholars in their respective fields redefine existing strands of rhetorical study within the periods expand the scope of rhetorical engagement and include additional figures and their works The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods As programs incorporating rhetorical studies continue to expand at the university level students and researchers are in need of up to date bibliographical resources No other work matches the scope and approach of *The Present State of Scholarship in the History of Rhetoric* which carries scholarship on rhetoric into the twenty first century
