David Copperfield Charles Dickens, 2008-05-08 I have in my heart of hearts a favourite child And his name is DAVID COPPERFIELD wrote Dickens of what is the most personal certainly one of the most popular of all his novels Dickens wrote the book after the completion of a fragment of autobiography recalling his employment as a child in a London warehouse and in the first person narrative a new departure for him realized marvellously the workings of memory The embodiment of his boyhood experience in the novel involved a complicated interweaving of truth and fiction at its most subtle in the portrait of his father as Mr Micawber one of Dickens's greatest comic creations Enjoying a humour that never becomes caricature the reader shares David's affection for the eccentric Betsey Trotwood and her protégé Mr Dick and smiles with the narrator at the trials he endures in his love for the delightfully silly Dora Settings East Anglia the London of the 1820s people and events are unified by their relationship to the story of Steerforth's treachery which reaches its powerful climax in the storm scene This edition which has the accurate Clarendon text includes Dickens's trial titles and working notes and eight of the original illustrations by Phiz ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more [Dickens, Family, Authorship](#) Lynn

Cain, 2017-05-15 Drawing on a wide range of Dickens's writings including all of his novels and a selection of his letters journalism and shorter fiction Dickens Family Authorship provides a provocative account of the evolution of an author from whose psychological honesty and imaginative generosity emerged precocious fictional portents of Freudian and post Freudian theory The decade 1843-1853 was pivotal in Dickens's career A phase of feverish activity on both personal and professional fronts it included the irrevocable souring of his relations with his parents the peripatetic residence in continental Europe and a massive proliferation of writing and editing activities including the aborted autobiography It was a period of astounding creativity which consolidated Dickens's authorial and financial stature It was also one tainted by loss the deaths of his father sister and daughter and the alarming desertion of his early facility for composition Lynn Cain's substantial study of the four novels produced during this turbulent decade Martin Chuzzlewit Dombey and Son David Copperfield and Bleak House traces the evolution of Dickens's creative imagination to discover in the modulating fictional representation of family relationships a paradigm for his authorial development Closely argued readings demonstrate a reorientation from a patriarchal to a maternal dynamic which signals a radical shift in Dickens's creative technique

Interweaving critical analysis of the four novels with biography and the linguistic and psychoanalytic writings of modern theorists especially Kristeva and Lacan Lynn Cain explores the connection between Dickens's susceptibility to depression during this period and his increasingly self-conscious exploitation of his own mental states in his fiction **Reading for Life**

Minor Creatures Ivan Kreilkamp, 2018-11-07 In the nineteenth century richly drawn social fiction became one of England's major cultural exports At the same time a surprising companion came to stand alongside the novel as a key embodiment of British identity the domesticated pet In works by authors from the Brontës to Eliot from Dickens to Hardy animals appeared as markers of domestic coziness and familial kindness Yet for all their supposed significance the animals in nineteenth century fiction were never granted the same fullness of character or consciousness as their human masters they remain secondary figures *Minor Creatures* re-examines a slew of literary classics to show how Victorian notions of domesticity sympathy and individuality were shaped in response to the burgeoning pet class The presence of beloved animals in the home led to a number of welfare minded political movements inspired in part by the Darwinian thought that began to sprout at the time Nineteenth century animals may not have been the heroes of their own lives but as Kreilkamp shows the history of domestic pets deeply influenced the history of the English novel

Romantic Friendship in Victorian Literature Carolyn W. de la L. Oulton, 2016-04-08 Carolyn Oulton recovers the strategies nineteenth century authors used to justify the ideal of same sex romantic friendship and the anxieties these strategies reveal Informed by recent insights into the erotic potential of such relationships but focused on romantic friendship as an independent and fully formulated ideal Oulton departs from other critics who view romantic friendship as either nebulous and culturally naive or an invocation of homoerotic responsiveness By considering both male and female friendships Oulton uncovers surprising parallels between them in novels and poetry by authors such as Dickens Tennyson Disraeli Charlotte Brontë and Braddon Oulton also examines conduct manuals periodicals and religious treatises tracing developments from mid century to the fin de siècle when romantic friendship first came under serious attack Her book is a persuasive challenge to those who view mid Victorian England existing in a state of blissful pre Freudian innocence as unproblematically accommodating of passionate same sex relationships
