In this chapter, a structure for developing these tools is introduced that includes four steps: (a) selecting the theoretical perspective that is most appropriate to the client; (b) utilizing a premise, supporting material, and a conclusion as key features of a case conceptualization; (c) utilizing a treatment plan overview, long-term goals, and short-term goals as key features in developing a treatment plan; and (d) developing an effective personal writing style that is comfortable for you and may be motivating to your client.
