Development As Freedom By Sen Amartya New Edition 2001:

Development as Freedom Amartya Sen, 1999 The main purpose of development is to spread freedom and its thousand charms to the unfree citizens The author explains how in a world of unprecedented increase in overall opulence millions of people living in the Third World are still unfree Even if they are not technically slaves they are denied elementary freedom and remain imprisoned in one way or another by economic poverty social deprivation political tyranny or cultural authoritarianism Inequality and Fiscal Policy Mr. Benedict J. Clements, Ruud A. de Mooij, Mr. Sanjeev Gupta, Mr. Michael Keen, 2015-09-21 The sizeable increase in income inequality experienced in advanced economies and many parts of the world since the 1990s and the severe consequences of the global economic and financial crisis have brought distributional issues to the top of the policy agenda The challenge for many governments is to address concerns over rising inequality while simultaneously promoting economic efficiency and more robust economic growth The book delves into this discussion by analyzing fiscal policy and its link with inequality Fiscal policy is the government's most powerful tool for addressing inequality It affects households consumption directly through taxes and transfers and indirectly via incentives for work and production and the provision of public goods and individual services such as education and health An important message of the book is that growth and equity are not necessarily at odds with the appropriate mix of policy instruments and careful policy design countries can in many cases achieve better distributional outcomes and improve economic efficiency Country studies on the Netherlands China India Republic of Congo and Brazil demonstrate the diversity of challenges across countries and their differing capacity to use fiscal policy for redistribution The analysis presented in the book builds on and extends work done at the IMF and also includes contributions from leading academics **Capabilities Equality** Alexander Kaufman, 2007-05-07 In this volume leading scholars present new and original essays to address controversies raised regarding the focus structure and justification of the capabilities approach to equality Capabilities, Gender, Equality Flavio Comim, Martha C. Nussbaum, 2014-04-17 Provides unique reflections on the capability approach and its relevance to new human development policies and political liberalism *Indianizing India* Bidyut Chakrabarty, 2024-08-30 This book presents a comprehensive portrait of how Indians conceived of the idea of India It highlights the diverse traditions and intellectual threads that contributed to the making of vibrant democracy The book Examines the different ideas of India through 14 eminent Indian thinkers Mahatma Gandhi Rabindranath Tagore Dayanand Saraswati VD Savarkar Savitribai Phule Pandita Ramabai Maulana Azad Jawaharlal Nehru BR Ambedkar Subhash Chandra Bose Aurobindo Ghosh Sarala Devi Chaudhurani and MA Jinnah Highlights how ancient and modern intellectual discourses coalesced with the aspirations of ordinary Indians under the yoke of colonialism Challenges colonial constructs and linear approaches to studying India Accessibly written this book is essential reading for students and researchers of Indian political thought modern history political science and South Asian studies **Legal Framework for the Admission of FDI** Thomas Pollan, 2006 The law on

foreign direct investment FDI belongs to the fastest changing legal field in international law Investors and the host state have long left behind a relationship dominated by the host state's desire to screen and choose FDI In the current market for FDI both parties try to assert influence but in the end the scarcity of FDI is the decisive factor This book provides an in depth study of the legal framework for the admission of FDI and presents insights into the pros and cons of various admission models Its goal is to identify legal and policy options that serve the host state's and investor's common needs The book is a comprehensive easy reference handbook that is of interest to lawyers academics and policy makers

Vulnerability Henk ten Have, 2016-04-08 Alongside globalization the sense of vulnerability among people and populations has increased We feel vulnerable to disease as new infections spread rapidly across the globe while disasters and climate change make health increasingly precarious Moreover clinical trials of new drugs often exploit vulnerable populations in developing countries that otherwise have no access to healthcare and new genetic technologies make people with disabilities vulnerable to discrimination Therefore the concept of vulnerability has contributed new ideas to the debates about the ethical dimensions of medicine and healthcare This book explains and elaborates the new concept of vulnerability in today's bioethics Firstly Henk ten Have argues that vulnerability cannot be fully understood within the framework of individual autonomy that dominates mainstream bioethics today it is often not the individual person who is vulnerable rather that his or her vulnerability is created through the social and economic conditions in which he or she lives Contending that the language of vulnerability offers perspectives beyond the traditional autonomy model this book offers a new approach which will enable bioethics to evolve into a global enterprise This groundbreaking book critically analyses the concept of vulnerability as a global phenomenon It will appeal to scholars and students of ethics bioethics globalization healthcare medical science medical research culture law and politics

Agency, Freedom and Choice Constanze Binder, 2019-03-29 In this book Binder shows that at the heart of the most prominent arguments in favour of value neutral approaches to overall freedom lies the value freedom has for human agency and development Far from leading to the adoption of a value neutral approach however ascribing importance to freedom's agency value requires one to adopt a refined value based approach Binder employs an axiomatic framework in order to develop such an approach She shows that a focus on freedom's agency value has far reaching consequences for existing results in the freedom ranking literature it requires one to move beyond a person's given all things considered preferences to the values underlying a person's preference formation Furthermore it requires as Binder argues one to account only for those differences between choice options which really matter to people Binder illustrates the implications of her analysis for the evaluation of public policy and human development with the capability approach only if sufficient importance is ascribed to freedom's agency value can the capability approach keep its promises

One World Mania Graham Dunkley, 2016-10-15 In this much needed book Graham Dunkley challenges the oft repeated notion that free trade and global integration are the best means of development for all nations at all times an idea

that has proved even more misguided in the wake of the global financial crisis By contrast Dunkley reveals through a wide range of statistical analysis and case studies that at best the evidence is mixed Looking systematically at issues such as trade led growth supply chains and financialization One World Mania reveals the many problems that over globalization has caused often at great human cost An indispensable guide for anyone wishing to understand the shortcomings of current global economic policies International Organization and Global Governance Thomas G. Weiss, Rorden Wilkinson, 2013-10-15 Featuring a strikingly diverse and impressive team of authors this is the most comprehensive textbook available for courses on international organizations and global governance This book covers the history theories structure activities and policies of both state centred institutions and non state actors in global politics
