Infocommunication Skills as a Rehabilitation and Social Reintegration Tool for Inmates Oliveira, Lídia, Graça, Daniela, 2018-08-31 The prison population is a social group with a high level of digital divide These individuals need to acquire digital skills for their future integration into society As such there is need for studies that can contribute with knowledge and intervention models to promote digital integration of prisoners in a system with very strict rules Infocommunication Skills as a Rehabilitation and Social Reintegration Tool for Inmates provides innovative insights into the ways to promote digital literacy in a prison context to promote better social integration of inmates facing the end of their sentences It also explores the work of intervention tools social inclusion of female inmates and policies of information literacy It is designed for academicians professionals and graduate level students seeking research centered on the promotion of digital literacy in prison systems

International Journal of Government Auditing , 1988 Tourism and Resilience Susan L Slocum, Carol Kline, 2017-06-09 This is the first book to address the concept of resilience and its specific application and relevance to tourism in particular tourism destinations Resilience relates to the ability of organisms communities ecosystems and populations to withstand the impacts of external forces while retaining their integrity and ability to continue functioning It is particularly applicable to tourism destinations and attractions which are exposed to the potentially harmful

and sometimes severe effects of tourism development and visitation but which also can experience increased resilience from the economic benefits of tourism Tourism and Resilience is relevant for researchers students and practitioners in tourism and related fields such as development studies geography sociology anthropology economics and business management Phenomena such as destination communities wildlife populations and ecosystems are discussed as well as the ability of places and communities to use tourism and its infrastructure to recover from disasters such as tsunamis earthquakes unrest and disease

Advancing the Science of Environmental Justice in the International Wildlife Trade Jamie K. Reaser, Nicholas King, Gunārs Hauff Platais, Ines Arroyo-Quiroz, Meredith L. Gore, Isla Kirkey, 2025-06-03 The Smithsonian Institution has offered to cover the publication costs of most if not all of the papers accepted for this Research Topic There is a need to conceptualize an environmental justice framework that informs regulation of the international wildlife trade to minimize species endangerment and infectious disease risks while also affording environmental justice to communities nations species and ecological systems entwined in the commerce pathway This Research Topic is dedicated to advancing the science of environmental justice in the international wildlife trade from both problems and solutions perspectives We welcome manuscripts relevant to legal and or illegal aspects of the international wildlife trade Submissions must be of a scholarly nature and framed from a social sciences perspective although inter disciplinary work is encouraged The international wildlife trade has been recognized as one of the greatest threats to biodiversity as well as a facilitator of zoonotic disease transmission with pandemic potential This has led to increased calls for regulation of this megabillion year industry ranging from comprehensive bans to risk based strategies that are species product and or geography specific Every aspect of wildlife commerce and every proposed risk mitigation measure has implications for environmental justice yet environmental justice has not been mainstreamed in the scientific inquiry policy nor planning processes relative to the international wildlife trade Because wildlife trade has diverse drivers and purposes as well as different levels of legality social legitimacy and enforcement there is an urgent need to understand the environmental justice issues tied to consumer demand vs supply provision along the trade chain including how this is influenced by economic cultural and geographic biases An understanding of environmental justice patterns and trends is necessary for the design and support of effective regulatory frameworks that manage risks in actuality rather than merely in concept Determining where and how to permit and support legal and sustainable wildlife trade versus where it should be more tightly regulated or even cease requires at least as much understanding of the human animal as it does the wildlife species A greater understanding of the political economy of the illegal aspects of the international wildlife trade from an environmental justice perspective can also open new vistas of green criminological inquiry Ecological citizenship and environmental justice are central themes in green criminology highly relevant to the wildlife trade They recognize justice as central to the right to be protected from harm whether that is one on one harm institutionalized harm or harm arising from human actions that affect climates and

environments on a global scale The recognition of such rights in trade regulation is scant and more likely overshadowed by a desire to protect the economic value of a good rather than the inherent value of the wild animal being consumed We will prioritize papers that use social science approaches tools to empirically investigate aspects of environmental justice in the international wildlife trade Manuscripts should be framed so as to facilitate development of an environmental justice framework that informs regulation of the international wildlife trade to minimize species endangerment and infectious disease risks while also affording environmental justice to communities nations and ecological systems entwined in the commerce pathway We welcome manuscripts relevant to legal and or illegal aspects of the international wildlife trade Submissions must be of a scholarly nature we will not accept advocacy documents The following manuscript types will also be considered if the contributions are sufficiently innovative transformative 1 Case studies of environmental justice problems resolutions in the international wildlife trade context 2 Models for advancing the science of environmental justice in the international wildlife trade context 3 Analyses of international wildlife trade law policy frameworks with a view toward integrating environmental justice issues as rooted in scholarly science All papers should emphasize conservation goals outcomes Direct inquiries about other manuscript themes types to Dr Jamie K Reaser at Reaserjk@si.edu This Research Topic was developed in collaboration with the IUCN Commission on Education and Communication <https://www.iucn.org/our-union/commissions/commission-education-and-communication> and the International Alliance Against Health Risks in the Wildlife Trade <https://alliance.health.wildlife.org>

Aprendizaje organizativo e informal en los centros educativos Joaquín Gairín Sallán, David Rodríguez- Gómez, 2020-09-03 El desarrollo profesional de los miembros de cualquier organización es fundamental para su mejora y desarrollo organizativo Los centros educativos y los profesionales de la educación no constituyen una excepción Si consideramos a la organización que aprende como aquella que es capaz de facilitar el aprendizaje de todos sus miembros y continuamente se transforma a sí misma estamos resaltando el valor del aprendizaje El desarrollo de la organización se basa por tanto en el desarrollo de las personas y en su capacidad para incorporar nuevas formas de hacer en la institución en la que trabajan Por ello dos de los temas claves en el estudio del desarrollo profesional docente han sido precisamente el contexto en el que este debe promoverse por ejemplo dentro o fuera de la organización y las actividades que facilitan un cambio real en el comportamiento del profesorado por ejemplo charla con colegas asistencia a cursos b squedas en Internet mentor as lectura de literatura especializada etc Teniendo en cuenta la importancia de promover el aprendizaje a lo largo de la vida los procesos de aprendizaje informal en el lugar de trabajo están adquiriendo cada vez más relevancia En la actualidad estos procesos de aprendizaje informal y social se están viendo fuertemente potenciados por la introducción de la tecnología concretamente el social media en los contextos laborales El objetivo de esta obra es ofrecer a directivos y profesorado de cualquier ámbito y etapa educativa y también a expertos teóricos y prácticos una breve introducción sobre la contribución de los procesos de aprendizaje organizativo e informal a los procesos de cambio y

mejora en los centros educativos así como sobre el uso de herramientas y estrategias que pueden facilitar dichos procesos de aprendizaje informal y social Agrindex ,1975 **Comprehensive Dissertation Index** ,1984 *La visión territorial y sostenible del desarrollo local* Joan Noguera Tur,2016-05-23 Estos dos volúmenes pretenden dar respuestas aplicadas a la problemática del desarrollo sostenible Debido a la inmensa red de interacciones que ultrapasa cualquier frontera los retos que afrontan los territorios y las sociedades son en el s XXI más complejos y las nuevas oportunidades emergen de la mano de la buena gobernanza territorial El progreso entendido en términos de oportunidades y bienestar en un contexto sostenible está al alcance de cualquier sociedad y territorio pues los propios actores locales se convierten en los primeros garantes del bien común Es el tiempo de la honestidad la colaboración y la ciudadanía Las sociedades locales y regionales reclaman su función protagonista en nuevos modelos de democracia participativa Y aunque las resistencias son patentes la nueva conciencia ciudadana lo es mucho más Es el momento del desarrollo local sostenible
