Campbell, James V. Reyes-Picknell, 2015-08-18 *Uptime* describes the combination of activities that deliver fewer breakdowns improved productive capacity lower costs and better environmental performance The bestselling second edition of *Uptime* has been used as a textbook on maintenance management in several postsecondary institutions and by many companies as the model framework for their maintenance management **Narrative as Virtual Reality 2** Marie-Laure Ryan, 2015-12 In this completely revised edition Ryan reflects on the developments that have taken place over the past fifteen years in terms of both theory and practice and focuses on the increase of narrativity in video games and its corresponding loss in experimental digital literature Page 4 of cover *The Age of Fear* Adrian Ferruelo, 2025-05-26 In a world overwhelmed by the fears of modern life climate change technology dependence and social media pressure Maya Torres a determined journalist stumbles upon a conspiracy that exploits these anxieties for control Teaming up with Ethan Cole a reclusive hacker and Dr Clara Bennett a psychologist Maya uncovers a hidden network manipulating society s deepest fears As the stakes rise Maya must confront her own vulnerabilities while fighting to expose the truth This gripping novel blends suspense mystery and social commentary offering a chilling reflection of the challenges we face today Perfect for fans of *Black Mirror* and *The Social Dilemma* this story will keep you questioning the world around you long after the final page **Life is an Opportunity** Roger O'Guin, 2021 The principles that guide our behaviors do so as thoughts They determine the course of our lives our evolution Our thinking continues daily while we are not always aware of our choices or their consequences If principles values or morality have been designed by a life of fear regret uncertainty or anger then the fatality will surely drag some emotional baggage with them as they proceed into their future The process of reacting to life events often occurs without conscious awareness If someone operates from a posture of survival or suspicion they will most likely alienate themselves from opposing ideas that may possibly include some accuracy or opportunities Thus the future will be infected by suspiciousness and some will lose the ability to think in terms of trustworthiness justice integrity or dependability Being decisive is a good thing unless the decision was made from a viewpoint of defensiveness obsession anger or disorder While some defended thinking is helpful as in telemarketers political jargon scammers and criminals an overactive defense system can result in

missed opportunities If we feel contrary to our environment then we most likely will be regulated by it begrudgingly because we give over personal control by being on guard It is possible to invest too much energy and vital force in the course of defending or disagreeing We all know the results of the acceleration of opposition To the extent that people hold themselves in reserve as opposed to investing in or exploring new concepts they can forfeit opportunities Diminish future prospects by maintaining some form of defense that seems safe but is actually holding them back Eventually this process can appear as normal and become its own progression into an overly defended mind We must at some point consciously monitor our thoughts thus our motivations to deal with or adapt to new information even if that information is contrary to what we already believe It is called being objective And to do so doesn't mean we have to change our values it simply means we are being courteous to those who have other views on a subject To become emotional is an option however that sometimes creates even more dissension Most of the time we use our observations to lead us toward a solution or answer But where do our observations come from Our personal history which may well have some inaccurate or dated information If we recognize frustration or misunderstandings we can govern our thoughts and create better outcomes We can overcome most of our troubles by doing so and we can create a better more prosperous future Anthology - Three Short Spiritual Stories Michael Hodo, Sophia Thomas, 2017-11-19 An anthology of three short spiritual stories Samuel Gary's Redemption and Katherine's Time *The Ultimate Teen Book Guide* Daniel Hahn, Leonie Flynn, Susan Reuben, 2007-12-26 Covering such genres as fantasy horror chick lit graphic novels sci fi and mystery and all encompassing must have resource profiles more than 700 of the best books for teens from the classics to the latest bestsellers Simultaneous The Directors Nick C. Garcia, 2012-06-26 Three very different boys three very different lives one common purpose What possible reason could God have in allowing the deaths of three teen boys seemingly in the prime of their lives What happens when God's plan doesn't fit with our expectations of the way life should be Discover God's special plan for three special children as they travel through the twists and turns of life and learn for yourself that God's plan may not be ours but His plan is indeed perfect
