Digging Up The Past Pelican Books:

Resurrecting the Past Sarah Griswold, 2025-09-15 In *Resurrecting the Past* Sarah Griswold shows how the Levant became a crucial front in a post 1918 fight over the French past a contingent and contradictory but always hard charging struggle over a forgotten heritage mandate Many scholars clergy pundits politicians and investors perceived the moment Allied forces entered Jerusalem in December 1917 to be a once in a lifetime opportunity to expand French influence evoking the vision of a new colony in the territory a French Levant But what transpired for the French state in the Levant after World War I and why does that ill conceived venture still matter today *Resurrecting the Past* investigates how heritage politics led to a new form of empire a French mandate for Syria and Lebanon and with it a tide of regional and international critique Against such opposition the heritage mandate leaned heavily on spectacle and science generating a sprawling set of sites and objects Ottoman mansions crusader castles Umayyad mosques Roman arches buried synagogues and Sumerian ziggurats As Griswold traces how French heritage efforts cycled through multiple ideal pasts in the Levant from 1918 to 1946 she reveals how each one though grounded in realities also complicated those constructs and the work of French heritage makers *Resurrecting the Past* offers a parable of how efforts in heritage politics aimed to construct a union of ideologies and objects deemed the best past for France s uncertain future but struggled as much as they succeeded Eventually those same heritage politics ironically helped officials justify the end of the French Levant *Northrop Frye's Lectures* Robert D. Denham, 2016-06-22 The great Canadian literary critic and humanist Northrop Frye taught at Victoria College University of Toronto for fifty three years *Remembering Northrop Frye* 2011 brought together letters from eighty nine of Frye s students and friends in which they recorded their recollections of him as a teacher during the 1940s and 1950s However these students provided very few accounts of what Frye actually said in the classroom Outside of the video recordings of Frye s course in the English Bible this book a transcription of fifteen sets of notes taken by Northrop Frye s students in the late 1940s and early 1950s is the only available extended record of the content of Frye s courses For all those who wish that they could have sat in one or more of Frye s classes the present collection of notes will at least partially fulfill that wish One can now attend as it were fifteen of Frye s classes without having to pay tuition *Kiplinger's Personal Finance* , 1960-08 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics *A Future for Archaeology* Robert Layton, Stephen Shennan, Peter Stone, 2016-09-16 Over the last thirty years issues of culture identity and meaning have moved out of the academic sphere to become central to politics and society at all levels from the local to the global Archaeology has been at the forefront of these moves towards a greater engagement with the non academic world often in an extremely practical and direct way for example in the disputes about the repatriation of human burials Such disputes have been central to the recognition that previously marginalized groups have rights in their own past that are important for their future The essays in this book look

back at some of the most important events where a role for an archaeology concerned with the past in the present first emerged and look forward to the practical and theoretical issues now central to a socially engaged discipline and shaping its future This book is published in honor of Professor Peter Ucko who has played an unparalleled role in promoting awareness of the core issues in this volume among archaeologists

Archaeological Practice as Politics and Ethics John Carman, 2024-08-29 This book is of relevance to all archaeologists and all others concerned with how an interest in the past impacts on the present This book explores the manner in which archaeology as a discipline and a field of endeavour contributes to the modern world The focus throughout the book is on practices the range of different things that archaeologists do and how they do and have done it in order to explore the field as a distinctive aspect of social practice over time It also concerns the structures social political economic professional philosophical in which archaeology is performed and the consequences for the discipline and its practitioners Throughout there is a concern especially with archaeology as a field of political and ethical decision making aspects well recognised by practitioners but rarely emphasised The book both asks and answers questions about the perception of archaeology from both within and outside the field The book draws widely on previous work by the author and others looking at the techniques of the field the people involved the political and social impacts both on and by the field In doing so it seeks to bring these different perspectives together to create a more holistic idea of what archaeology is has been and could be The book is offered to those outside the field as a justification for archaeology a field coming under increasing pressure from those who consider it as so many humanities and social science disciplines as an expensive luxury

Charles Olson's Reading Ralph Maud, 1996 In this narrative account of the life and work of Charles Olson Ralph Maud focuses on what the poet read as a basis for understanding the work he produced To an extraordinary degree Olson's reading and life were coextensive according to Maud who notes that Olson saw his written output over his lifetime as a total cosmology An individual who rarely traveled this major American poet explored the world and its history as well as the furthest reaches of the thought of his day through books Maud builds upon George Butterick's annotated listing of Olson's library bought by the University of Connecticut after the poet's death in 1970 The present volume however adds categories of books Butterick deliberately omitted Olson's childhood books and poetry by his own contemporaries Linking Olson's books to his intellectual and poetic development at each stage of his career Maud reveals such little known but important connections as the contracted book project Operation Red White and Black and Olson's plan for the long poem West two unrealized projects much later shaped into The Maximus Poems Maud also outlines the surprisingly multiple role of the painter Corrado Cagli who brought home to Olson the significance of the Holocaust and introduced him both to the Tarot and to the theories of non Euclidean geometry that Olson variously incorporated into his poems and essays In discussing Olson's relationship to Ezra Pound Maud defines in some detail what Olson gained from Pound and what he repudiated Maud refutes the notion that Olson's intellectual and creative powers declined during the last

years of his life demonstrating that during these years Olson developed his Jungian interest his attention to early Greek thought and a new concern for Northern mythology This chronicle of Olson s reading from childhood to deathbed constitutes a critical biography of the larger than life author of Call Me Ishmael and The Maximus Poems No modern poet is more revealed in his sources than Olson Maud s comprehensive and complete study provides a basis for new and fresh modes of thinking about Olson s great achievement Resources for the Teaching of Anthropology David Goodman

Mandelbaum,Gabriel W. Lasker,Ethel M. Albert,2023-11-15 **Lost and Gone Away** Lynn Jenner,2015-07-01 Between 2010 and 2014 Lynn Jenner made several related emotional and intellectual investigations Lost and Gone Away is the record of these a fascinating ambitious hybrid text of nonfiction prose poems and poetry The book traverses the aftermath of the Christchurch earthquake samples and sifts through the lost and recovered detritus of the ancient world radiates its attention out from that epicentre of loss the Point Last Seen from which all searches begin and quietly devastatingly explores how one might think and write about the Holocaust from far away An excavation of loss in four parts Lost and Gone Away also plumbs the ability of literature to contain refresh and explore The cumulative result is a fresh sobering and searching intellectual journey a tremendously powerful work of creative nonfiction **Archaeologists in Print** Amara Thornton,2018-06-25

Archaeologists in Print is a history of popular publishing in archaeology in the nineteenth and twentieth centuries a pivotal period of expansion and development in both archaeology and publishing It examines how British archaeologists produced books and popular periodical articles for a non scholarly audience and explores the rise in archaeologists public visibility Notably it analyses women s experiences in archaeology alongside better known male contemporaries as shown in their books and archives In the background of this narrative is the history of Britain s imperial expansion and contraction and the evolution of modern tourism in the Eastern Mediterranean and Middle East Archaeologists exploited these factors to gain public and financial support and interest and build and maintain a reading public for their work supported by the seasonal nature of excavation and tourism Reinforcing these publishing activities through personal appearances in the lecture hall exhibition space and site tour and in new media film radio and television archaeologists shaped public understanding of archaeology It was spade-work scripted The image of the archaeologist as adventurous explorer of foreign lands part spy part foreigner eternally alluring solidified during this period That legacy continues undimmed today Praise for Archaeologists in Print This beautifully written book will be valued by all kinds of readers you don t need to be an archaeologist to enjoy the contents which take you through different publishing histories of archaeological texts and the authors who wrote them From the productive partnership of travel guide with archaeological interest to the women who feature so often in the history of archaeological publishing via closer analysis of the impact of John Murray Macmillan and Co and Penguin this volume excavates layers of fascinating facts that reveal much of the wider culture of the late nineteenth and twentieth centuries The

prose is clear and the stories compulsive Thornton brings to life a cast of people whose passion for their profession lives again in these pages Warning the final chapter on Archaeological Fictions will fill your to be read list with stacks of new titles to investigate This is a highly readable accessible exploration into the dynamic relationships between academic authors publishers and readers It is in addition an exemplar of how academic research can attract a wide general readership as well as a more specialised one a stellar combination of rigorous scholarship with lucid pacy prose Highly recommended Samantha Rayner Director of UCL Centre for Publishing Deputy Head of Department and Director of Studies Department of Information Studies UCL
