Underscores the importance of rhetoric to education across a wide range of disciplines as well as to effective participation in public arenas Thus the volume connects rhetoric's long teaching tradition to an activist agenda for informed civic engagement Addresses methodological and theoretical difficulties and offers means of negotiating them Provides one of the first introductions to rhetorical studies across cultures and to the related debates concerning comparative and contrastive rhetorics

Rhetorical Investigations Leslie Gardner, 2013-04-12 Rhetorical analysis of texts exposes plausible truths and presumptions implied by the writer's presentation In this volume Leslie Gardner analyses the master psychologist Jung who claimed to be expert at uncovering personal psychological truths In his theoretical writings his rhetoric reveals philosophical ramifications which bear strong similarities to those of the rhetorician of the 18th century Italian philosopher Giambattista Vico This book is driven by an interest in arguing that it is possible to read Jung's works easily enough when you have a set of precepts to go by The paradox of scientific discovery being set out in Jung's grotesque and arcane imagery begins to seem a startling and legitimate psychology for the 21st century It is time Jungian studies took on this most appropriate examination of analytical psychology Bringing Vico to bear directly on Jung's thought has only been cursorily attempted before although much alluded to We find indeed that some of Jung's ideas derive directly from rhetorical theory and this volume proposes to highlight Jung's innovations and bring him into forefront of contemporary psychological thought *Rhetorical Investigations* will be of interest to analysts and academics and also to those studying philosophy and psychology

The Present State of Scholarship in the History of Rhetoric Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions *The Present State of Scholarship in Historical and Contemporary Rhetoric* has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric *The Present State of Scholarship in the History of Rhetoric* doesn't simply update but rather recasts study in the history of rhetoric The authors experienced and well known scholars in their respective fields redefine existing strands

of rhetorical study within the periods expand the scope of rhetorical engagement and include additional figures and their works The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods As programs incorporating rhetorical studies continue to expand at the university level students and researchers are in need of up to date bibliographical resources No other work matches the scope and approach of *The Present State of Scholarship in the History of Rhetoric* which carries scholarship on rhetoric into the twenty first century

Authoring Autism M. Remi Yergeau, 2018-01-05 In *Authoring Autism* M Remi Yergeau defines neurodivergence as an identity neuroqueerness rather than an impairment Using a queer theory framework Yergeau notes the stereotypes that deny autistic people their humanity and the chance to define themselves while also challenging cognitive studies scholarship and its reification of the neurological passivity of autistics They also critique early intensive behavioral interventions which have much in common with gay conversion therapy and questions the ableist privileging of intentionality and diplomacy in rhetorical traditions Using storying as their method they present an alternative view of autistic rhetoricity by foregrounding the cunning rhetorical abilities of autistics and by framing autism as a narrative condition wherein autistics are the best equipped people to define their experience Contending that autism represents a queer way of being that simultaneously embraces and rejects the rhetorical Yergeau shows how autistic people queer the lines of rhetoric humanity and agency In so doing they demonstrate how an autistic rhetoric requires the reconceptualization of rhetoric s very essence

Heuristic Rhetoric Gábor Tahin, 2022-11-30 This book introduces a novel approach to the analysis and practice of persuasive speaking and writing heuristic rhetoric The new method has evolved to fulfil the need at universities government departments political organisations business enterprises and other public institutions for a modern practical alternative to classical rhetoric which is in the author s view no longer capable of giving a complete description of contemporary predominantly mediated forms of public persuasive discourse whilst other competing disciplines such as critical discourse analysis or strategic manoeuvring have not yet produced a set of tools which have the comprehensive nature and practical orientation of Classical Greek and Roman rhetorical system The book expounds heuristic rhetoric as an inter disciplinary method to develop advanced skills of critical and strategic reasoning Applying a novel set of principles for the strategic analysis of persuasive reasoning in complex rhetorical situations the method emphasizes preparing and continuously adjusting argumentation according to the demands of unpredictable circumstances

Rhetorical Invention and Religious Inquiry Walter Jost, Wendy Olmsted, 2000-01-01 This exceptional collection of writings offers for the first time a discussion among leading thinkers about the points at which rhetoric and religion illuminate and challenge each other The contributors to the volume are eminent

theorists and critics in rhetoric theology and religion and they address a variety of problems and periods Together these writings shed light on religion as a human quest and rhetoric as the origin and sustainer of that quest They show that when pursued with intelligence and sensitivity rhetorical approaches to religion are capable of revitalizing both language and experience Rhetorical figures for example constitute forms of language that say what cannot be said in any other way and that move individuals toward religious truths that cannot be known in any other way When firmly placed within religious social and literary history the convergence of rhetoric and religion brings into focus crucial issues in several fields including philosophy psychology history and art and interprets relations among self language and world that are central to both past and present cultures

Adaptive Rhetoric Alex C. Parrish, 2013-11-07 Rhetorical scholarship has for decades relied solely on culture to explain persuasive behavior While this focus allows for deep explorations of historical circumstance it neglects the powerful effects of biology on rhetorical behavior how our bodies and brains help shape and constrain rhetorical acts Not only is the cultural model incomplete but it tacitly endorses the fallacy of human exceptionalism By introducing evolutionary biology into the study of rhetoric this book serves as a model of a biocultural paradigm Being mindful of biological and cultural influences allows for a deeper view of rhetoric one that is aware of the ubiquity of persuasive behavior in nature Human and nonhuman animals and even some plants persuade to survive to live love and cooperate That this broad spectrum of rhetorical behavior exists in the animal world demonstrates how much we can learn from evolutionary biology By incorporating scholarship on animal signaling into the study of rhetoric the author explores how communication has evolved and how numerous different species of animals employ similar persuasive tactics in order to overcome similar problems This cross species study of rhetoric allows us to trace the origins of our own persuasive behaviors providing us with a deeper history of rhetoric that transcends the written and the televised and reveals the artifacts of our communicative past
