Caught The Prison State And The Lockdown Of American Politics:

Caught Marie Gottschalk, 2014-12-07 A major reappraisal of crime and punishment in America The huge prison buildup of the past four decades has few defenders today yet reforms to reduce the number of people in U S jails and prisons have been remarkably modest Meanwhile a carceral state has sprouted in the shadows of mass imprisonment extending its reach far beyond the prison gate It includes not only the country s vast archipelago of jails and prisons but also the growing range of penal punishments and controls that lie in the never never land between prison and full citizenship from probation and parole to immigrant detention felon disenfranchisement and extensive lifetime restrictions on sex offenders As it sunders families and communities and reworks conceptions of democracy rights and citizenship this ever widening carceral state poses a formidable political and social challenge In this book Marie Gottschalk examines why the carceral state with its growing number of outcasts remains so tenacious in the United States She analyzes the shortcomings of the two dominant penal reform strategies one focused on addressing racial disparities the other on seeking bipartisan race neutral solutions centered on reentry justice reinvestment and reducing recidivism In this bracing appraisal of the politics of penal reform Gottschalk exposes the broader pathologies in American politics that are preventing the country from solving its most pressing problems including the stranglehold that neoliberalism exerts on public policy She concludes by sketching out a promising alternative path to begin dismantling the carceral state

Caught Joan Petersilia, 2016 It is often said that a crisis is a terrible thing to waste allowing for progress that might not be accomplished in a saner atmosphere Mass incarceration is the USA s current crisis and we should exploit this opportunity to reduce unnecessary imprisonment But in order to move beyond symbolic sound bites to achieve real and lasting progress we need more nuanced discussions of the challenges and a thoughtfully planned effort to overcome them Fortunately a new book by University of Pennsylvania political scientist Marie Gottschalk takes us past the broad outlines of debate to explore the sobering complexities inherent in prison reform She doubts that current progressive narratives will be enough to roll back the penalties of the 1980s and envisions a very different path forward Most importantly she reminds us of the enormity of our task

Caught (eGalley) Marie Gottschalk, **Uncivil Democracy** Jamila Michener, Mallory E. SoRelle, 2026-01-27 How the civil legal system undermines the political lives of marginalized communities Each year as many as 250 million Americans face civil legal problems like eviction debt collection and substandard housing These problems are disproportionately shouldered by racially and economically marginalized people particularly women of color Civil courts and legal aid organizations are supposed to protect their rights yet more than 90 percent of low income people receive inadequate or no legal assistance Instead access to justice is reserved for those who can afford its high price For those who can t the repercussions can be devastating from homelessness and loss of public benefits to broken families and diminished health *Uncivil Democracy* looks at the US civil justice system through the eyes of the people whose very citizenship is indelibly shaped by it Jamila Michener and Mallory SoRelle show how civil legal

problems and the institutions meant to address them greatly erode trust in the legal system among marginalized communities undermining their broader sense of democratic citizenship and political standing While legal representation offers vital protections increased access to justice through an ever growing supply of lawyers does not address the structural problems that generate demand for lawyers in the first place Looking at cases involving unfair evictions and substandard housing Michener and SoRelle demonstrate how community groups such as tenants unions can fill this justice gap and provide the means to build political power that transforms the conditions that create precarity Drawing on eye opening qualitative evidence and a wealth of historical and survey data *Uncivil Democracy* explains why collective organizing holds the greatest promise for altering the systems that create civil legal problems and exercising the political power necessary for meaningful change

Toward Freedom Toure Reed, 2020-02-25 The most brilliant historian of the black freedom movement reveals how simplistic views of racism and white supremacy fail to address racial inequality and offers a roadmap for a more progressive brighter future Cornel West author of *Race Matters* The fate of poor and working class African Americans who are unquestionably represented among neoliberalism's victims is inextricably linked to that of other poor and working class Americans Here Reed contends that the road to a more just society for African Americans and everyone else is obstructed in part by a discourse that equates entrepreneurialism with freedom and independence This ultimately insists on divorcing race and class In the age of runaway inequality and Black Lives Matter there is an emerging consensus that our society has failed to redress racial disparities The culprit however is not the sway of a metaphysical racism or the modern survival of a primordial tribalism Instead it can be traced to far more comprehensible forces such as the contradictions in access to New Deal era welfare programs the blinders imposed by the Cold War and Ronald Reagan's neoliberal assault on the half century long Keynesian consensus

City of Inmates Kelly Lytle Hernández, 2017-02-15 Los Angeles incarcerates more people than any other city in the United States which imprisons more people than any other nation on Earth This book explains how the City of Angels became the capital city of the world's leading incarcerator Marshaling more than two centuries of evidence historian Kelly Lytle Hernández unmask how histories of native elimination immigrant exclusion and black disappearance drove the rise of incarceration in Los Angeles In this telling which spans from the Spanish colonial era to the outbreak of the 1965 Watts Rebellion Hernández documents the persistent historical bond between the racial fantasies of conquest namely its settler colonial form and the eliminatory capacities of incarceration But *City of Inmates* is also a chronicle of resilience and rebellion documenting how targeted peoples and communities have always fought back They busted out of jail forced Supreme Court rulings advanced revolution across bars and borders and as in the summer of 1965 set fire to the belly of the city With these acts those who fought the rise of incarceration in Los Angeles altered the course of history in the city the borderlands and beyond This book recounts how the dynamics of conquest met deep reservoirs of rebellion as Los Angeles became the City of Inmates the nation's carceral core It is a story that is far from over

Control and Protect Jennifer

Musto,2016-07-05 Control and Protect explores the meaning and significance of efforts designed to combat sex trafficking in the United States A striking case study of the new ways in which law enforcement agents social service providers and nongovernmental advocates have joined forces in this campaign this book reveals how these collaborations consolidate state power and carceral control This book examines how partnerships forged in the name of fighting domestic sex trafficking have blurred the boundaries between punishment and protection victim and offender and state and nonstate authority

Handbook of the Sociology of Racial and Ethnic Relations Pinar Batur,Joe R. Feagin,2018-06-11 The study of racial and ethnic relations has become one of the most written about aspects in sociology and sociological research In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America Africa and Asia This handbook is a true international collaboration looking at racial and ethnic relations from an academic perspective It starts from the principle that sociology is at the hub of the human sciences concerned with racial and ethnic relations Work and

the Carceral State Jon Burnett,2022-01-20 Revolutionises our understanding of the carceral state Fidelis Chebe Director of Migrant Action During 2019 20 in England and Wales over 17 million hours of labour were carried out by more than 12 500 people incarcerated in prisons while many people in immigration removal centres also worked In many cases such workers constitute a sub waged captive workforce who are discarded by the state when done with Work and the Carceral State examines these forms of work as part of a broader exploration of the relationship between criminalisation criminal justice immigration policy and labour tracing their lineage through the histories of transportation and banishment of houses of correction and prisons to the contemporary production of work Criminalisation has been used to enforce work and to discipline labour throughout the history of England and Wales This book demands that we recognise the carceral state as operating at the frontier of labour control in the 21st century **Guilty People** Abbe Smith,2020-01-17 Criminal defense

attorneys protect the innocent and guilty alike but the majority of criminal defendants are guilty This is as it should be in a free society Yet there are many different types of crime and degrees of guilt and the defense must navigate through a complex criminal justice system that is not always equipped to recognize nuances In Guilty People law professor and longtime criminal defense attorney Abbe Smith gives us a thoughtful and honest look at guilty individuals on trial Each chapter tells compelling stories about real cases she handled some of her clients were guilty of only petty crimes and misdemeanors while others committed offenses as grave as rape and murder In the process she answers the question that every defense attorney is routinely asked How can you represent these people Smith s answer also tackles seldom addressed but equally important questions such as Who are the people filling our nation s jails and prisons Are they as dangerous and depraved as they are usually portrayed How did they get caught up in the system And what happens to them there This book challenges the assumption that the guilty are a separate species unworthy of humane treatment It is dedicated to guilty people every single one of us
