Conceptions of Islamic Education Yusef Waghid, 2011 *Conceptions of Islamic Education Pedagogical Framings* argues that mad ris Muslim schools cannot exclusively be held responsible for the cultivation of extremism Islamic education can most appropriately be framed according to three interrelated concepts tarbiyyah rearing or nurturing ta l m learning instruction and ta d b good action These three phenomena are explored along the lines of a minimalist maximalist continuum that guides practices and institutions differently A minimalist understanding of Islamic education does not necessarily produce uncritical citizens but a maximalist understanding engenders an ethical democratic community and cosmopolitan beings concerned about their responsibility towards others By looking specifically at South African Muslim schools *Conceptions of Islamic Education* undermines the misconception that such schools perpetuate Islamic radicalism

Rutland, 2021-02-22 This book explores the advantages of and challenges concerning Special Religious Education SRE in multicultural Australia and argues for the need for General Religious Education GRE as well Through the lens of the most recent scholarship and drawing on an in depth qualitative study and specific case studies the book examines the current debate on the role of religious education within government schools It addresses key concepts of values education spirituality health and wellbeing and cultural and religious identity It analyses why it is important to retain SRE together with GRE as government policy It explores highly relevant controversial and contested issues regarding SRE including the 30% of Australia s population who declare themselves as having no religion and brings fresh insights to the table While secularization has increased in both the national and international spheres there has also been an increase in fundamentalism within religious beliefs Events such as the September 11 terror attacks and the more recent mass shootings by white supremacists and eco fascists in Christchurch New Zealand and Pittsburgh and San Diego in the USA are reminders that religion is still a major actor in the twenty first century This poses new challenges for the relationship between church and state and demonstrates the need to revisit the role of religious education within government schools While the importance of GRE is generally acknowledged SRE has increasingly come under attack by some researchers and teacher and parent bodies as being inappropriate and contradictory to the values of the postmodern world On the other hand the key stakeholders from all the faith traditions in Australia wish to retain the SRE classes in government schools The book addresses this burning issue and shows that it is relevant not only for Australia but also globally **Philosophies of Islamic Education** Mujadad Zaman, Nadeem A. Memon, 2016-03-31 The study of Islamic education has hitherto remained a tangential inquiry in the broader focus of Islamic Studies In the wake of this neglect a renaissance of sorts has occurred in recent years reconfiguring the importance of Islam s attitudes to knowledge learning and education as paramount in the study and appreciation of Islamic civilization Philosophies of Islamic Education stands in tandem to this call and takes a pioneering step in establishing the importance of its study for the educationalist academic and student alike Broken into four sections it deals with theological pedagogic institutional and contemporary issues reflecting the diverse and often competing notions and practices of Islamic education As a unique international collaboration bringing into conversation theologians historians philosophers teachers and sociologists of education Philosophies of Islamic Education intends to provide fresh means for conversing with contemporary debates in
