Dignity And Dying A Christian Appraisal Horizons In Bioethics Series:

The Center for Bioethics and Human Dignity Presents Dignity and Dying John Frederic Kilner, Arlene B. Miller, Edmund D. Pellegrino, 1996 This book offers a more well founded perspective for considering some of the significant ethical issues in the field of medicine and health care

Christian Ethics (Revised Edition) Wayne Grudem, 2024-09-18 What Does the Bible Teach about How to Live in Today's World How should Christians live when the surrounding culture is increasingly hostile to Christian moral values Granted the Bible is our guide but how can we know if we are interpreting it rightly with regard to ethical questions about wealth and poverty marriage and divorce birth control abortion euthanasia homosexuality ethical business practices environmental stewardship and dozens of other issues And on a very practical level how can we know God's will in the ordinary decisions of life To address questions like these Wayne Grudem author of the bestselling book *Systematic Theology* draws on 40 years of teaching classes in ethics to write this wide ranging introduction to biblical moral reasoning organized according to the structure of the Ten Commandments He issues a challenging call for Christians to live lives of personal holiness and offers a vision of the Christian life that is full of joy and blessing through living each day in a way that is pleasing to God Written by Wayne Grudem Bestselling author of *Systematic Theology* and the *What the Bible Says About* series Biblical and Applicable Teaches readers how to protect 7 central tenets of God's law God's honor human authority life marriage property truth and purity of heart Accessible An ideal textbook for Christian college and seminary ethics classes with straightforward language and a bibliography for the topic at the end of each chapter Replaces ISBN 978 1 4335 4965 6

The Reproduction Revolution John Frederic Kilner, Paige Comstock Cunningham, William David Hager, 2000 A challenging look at today's most hotly debated issues in bioethics Within the high paced highly controverted field of bioethics the most hotly debated issues center on sexuality reproductive technology and the family This new volume from the Center for Bioethics and Human Dignity provides a thought provoking appraisal of the ethical dimension of the reproductive revolution from a Christian perspective Thirty scholars and medical practitioners discuss some of the most pressing topics related to human reproduction including the moral status of embryos the use of donor eggs and sperm surrogate motherhood and human cloning the abortifacient effect of birth control pills

Peace Be with You, Rest in Peace Sue Witty, 2020-12-09 Hospital and hospice chaplains are expected to assist individuals and families face the reality of their mortality via a gentle calming presence To the greatest extent possible chaplains help people die with an awareness of being loved of loving and forgiving and of gratitude for the life they have lived But terminal agitation and spiritual distress are common components of the final stage of life How do professional chaplains honor and attend to each individual's spiritual religious needs to the best of their abilities in the days preceding death This book explores that critical question

A Public Faith Michael Cromartie, 2003 The essays in this volume take another look at the role of evangelicals in American civic life The prominent contributors examine evangelicals beliefs and activity on topics ranging from bioethics to race relations and welfare reform

to international human rights Taken together the essays show that contrary to what critics have proclaimed the social commitment of evangelicals extends considerably beyond family related issues and that their activity in the public sphere makes an essential contribution to the public good Co published with the Ethics and Public Policy Center *The Changing Face of Health Care* John Frederic Kilner,Robert David Orr,Judith Allen Shelly,Judy Allen Shelly,1998 In response to the many changes currently going on in health care this book offers the combined insight and wisdom of a stellar group of scholars and professionals with extensive experience in the health care field The book opens with a look at people s actual experience of health care today from four different perspectives It then addresses foundational questions including the nature of medicine nursing and justice Surveyed next are the changing economics of health care as well as the impact of these changes on such areas as mental health care long term care health care for minorities and legal malpractice The closing section of the book assesses from a Christian perspective available constructive alternatives including creative funding strategies with special attention to the needs of poor persons physician unions and the use of alternative medicine therapies The Center for Bioethics and Human Dignity Presents Bioethics and the Future of Medicine John Frederic Kilner,Nigel M. de S. Cameron,David L. Schiedermayer,1995 The extensive attention devoted to abortion has led Christians for too long to overlook much of the exploding bioethics agenda Moreover to focus only on issues is to fail to address the profound changes taking place in the very nature of the medical profession This book signals the commitment of the Center for Bioethics and Human Dignity to help expand the church s bioethical vision and to foster a more substantial Christian contribution to the public debate BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Ethics & Medicine ,2000 International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences ,1996 *Choice* ,1997
