The Trees of the Cross Gregory C. Bryda, 2023-06-13 A revelatory exploration of wood's many material ecological and symbolic meanings in the religious art of medieval Germany A rewarding study that is full of new insights *Jeremy Warren Art Newspaper* In late medieval Germany wood was a material laden with significance It was an important part of the local environment and economy as well as an object of religious devotion in and of itself Gregory C Bryda examines the multiple meanings of wood and greenery within religious art as a material as a feature of agrarian life and as a symbol of the cross whose wood has resonances with other iconographies in the liturgy Bryda discusses how influential artists such as Matthias Grünewald known for the Isenheim Altarpiece and the renowned sculptor Tilman Riemenschneider exploited wood's multivalent nature to connect spiritual themes to the lived environment outside church walls Exploring the complex visual and material culture of the period this lavishly illustrated volume features works ranging from monumental altarpieces to portable pictures and offers a fresh understanding of how wood in art functioned to unlock the mysteries of faith and the natural world in both liturgy and everyday life

The Virtual Liturgy and Ritual Artifacts in Medieval and Early Modern Studies Katharine Scherff, 2023-03-03 Examining the history of altar decorations this study of the visual liturgy grapples with many of the previous theoretical frameworks to reveal the evolution and function of these ritual objects Using an interdisciplinary approach this book uses traditional art historical methodologies and media technology theory to reexamine ritual objects Previous analysis has not considered the in-between nature of these objects as deliberate and virtual conduits to the divine The liturgy the altarpiece the altar environment relics and their reliquaries are media In a series of case studies several objects tell a different story about culture and society in medieval Europe In essence they reveal that media and media technologies generate and modulate the individual and collective structure of feelings of sacredness among assemblages of humans and nonhumans The book will be of interest to scholars working in art history medieval studies early modern studies and architectural history

Riemenschneider in Rothenburg Katherine M. Boivin, 2021-02-26 The concept of the medieval city is fixed in the modern imagination conjuring visions of fortified walls towering churches and winding streets In *Riemenschneider in Rothenburg* Katherine M Boivin investigates how medieval urban planning and artistic programming worked together to form dynamic environments demonstrating the agency of objects styles and spaces in mapping the late medieval city Using altarpieces by the famed medieval artist Tilman Riemenschneider as touchstones for her argument Boivin explores how artwork in Germany's preeminent medieval city Rothenburg ob der Tauber deliberately propagated civic ideals She argues that the numerous artistic pieces commissioned by the city's elected council over the

course of two centuries built upon one another creating a cohesive structural network that attracted religious pilgrims and furthered the theological ideals of the parish church By contextualizing some of Rothenburg s most significant architectural and artistic works such as St James s Church and Riemenschneider s Altarpiece of the Holy Blood Boivin shows how the city government employed these works to establish a local aesthetic that awed visitors raising Rothenburg s profile and putting it on the pilgrimage map of Europe Carefully documented and convincingly argued this book sheds important new light on the history of one of Germany s major tourist destinations It will be of considerable interest to medieval art historians and scholars working in the fields of cultural and urban history

Faces of Charisma: Image, Text, Object in Byzantium and the Medieval West, 2018-07-26 In *Faces of Charisma Image Text Object in Byzantium and the Medieval West* a multi disciplinary group of scholars advances the theory that charisma may be a quality of art as well as of person Beginning with the argument that Weberian charisma of person is itself a matter of representation this volume shows that to study charismatic art is to experiment with a theory of representation that allows for the possibility of nothing less than a breakdown between art and viewer and between art and lived experience The volume examines charismatic works of literature visual art and architecture from England Northern Europe Italy Ancient Greece and Constantinople and from time periods ranging from antiquity to the beginning of the early modern period Contributors are Joseph Salvatore Ackley Paul Binski Paroma Chatterjee Andrey Egorov Erik Gustafson Duncan Hardy Stephen Jaeger Jacqueline E Jung Lynsey McCulloch Martino Rossi Monti Gavin Richardson and Andrew Romig

Lateness and Modernity in Medieval Architecture, 2023-05-08 How have the concepts of lateness and modernity inflected the study of medieval and early modern architecture This volume seeks to re situate monuments from the 14th 16th centuries that are indebted to medieval building practices and designs within the more established narratives of art and architectural history Drawing on case studies from Cyprus to the Dominican Republic the book explores historiographical methodological and theoretical concerns related to the study of medieval architecture bringing to the fore the meanings and functions of the Gothic in specific contexts of use and display The development of local styles relative to competing traditions and instances of coexistence and hybridization are considered in relation to workshop practices and design theory the role of ornament the circulation of people and knowledge spatial experiences as well as notions of old and new Contributors are Jakub Adamski Flaminia Bardati Costanza Beltrami Robert Bork Jana Gajdo ov Maile S Hutterer Jacqueline Jung Alice Klima Abby McGehee Paul Niell Michalis Olympios Zachary Stewart Alice Isabella Sullivan Kyle G Sweeney and Marek Walczak

Holy Monsters, Sacred Grotesques Michael E. Heyes, 2018-08-10 *Holy Monsters Sacred Grotesques* examines the intersection of religion and monstrosity in a variety of different time periods in the hopes of addressing two gaps in scholarship within the field of monster studies The first part of the volume running from the medieval to the Early Modern period focuses upon the view of the monster through non majority voices and accounts from those who were themselves branded as monsters Overlapping partially with the Early Modern and proceeding to the present day the

contributions of the second part of the volume attempt to problematize the dichotomy of secular religious through a close look at the monsters this period has wrought *The Gothic Screen* Jacqueline E. Jung, 2012-12-28 This book reveals how Gothic choir screens through both their architecture and sculpture were vital vehicles of communication and shapers of community within the Christian church Rural Space in the Middle Ages and Early Modern Age Albrecht Classen, 2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic **Law and Religious Cultural Heritage in Europe** Theodosios Tsivolas, 2014-07-22 This book examines in detail both historical and current legal concepts of religious cultural heritage within the context of the European continent The latter group is primarily based on the variety of sacred cultural elements emanating from the different religious traditions of the peoples of Europe which are deemed worthy of protection and preservation due to their outstanding value in terms of their social cultural and religious significance In view of this the study provides evidence of the European States active involvement with their sacred cultural treasures on the basis of the political and legal foundations of neutrality and pluralism Furthermore the book analyzes all relevant international legislative instruments i e the plethora of EU EC and UNESCO norms as well as all major European legislative patterns in light of their significance for the aforementioned aspects of pluralism and neutrality The interdisciplinary references listed at the end of each chapter provide an additional incentive for further reading on the subject matter The most important finding to emerge from the study is that there is a shared legal ethos in Europe that imposes a duty of appropriate care concerning the vast variety of sacred cultural goods and the religious cultural heritage in general as an invaluable repository of European cultural capital It also considers the sui generis nature of this capital like any other type of asset it may deteriorate or fade over time necessitating investment in its preservation or refurbishment nevertheless like no other this particular capital maintains a distinct cultural value as it contains an additional characteristic of sacredness expressed in the form of its religious character the latter being analyzed as a triptych of religious memory religious aesthetics and religious beliefs
