International Humanitarian Law Nicholas Tsagourias,Alasdair Morrison,2023-09-07 By drawing together key documents case law reports and other materials on international humanitarian law from diverse sources the book presents in a systematic and analytically coherent manner this body of law and to offer students teachers and practitioners an easily accessible targeted but also critically informed account of the relevant rules and of how they apply in practice It covers all areas of international humanitarian law and specifically addresses issues of contemporary interest such as cyber warfare targeting occupation detention human rights in armed conflict peacekeeping neutrality responsibility and accountability enforcement reparations The book is ideal for instruction research reference and application purposes either as a standalone resource or as accompaniment to textbooks and more specialist references International Humanitarian Law Emily Crawford,Alison Pert,2020-03-12 The law that regulates armed conflicts is one of the oldest branches of international law and yet continues to be one of the most dynamic areas of law today This book provides an accessible scholarly and up to date examination of international humanitarian law offering a comprehensive and logical discussion and analysis of the law The book contains detailed examples extracts from relevant cases useful discussion questions and a recommended reading list for every chapter Emerging trends in theory and practice of international humanitarian law are also explored allowing for readers to build on their knowledge and grapple with some of the biggest challenges facing the law of armed conflict in the twenty first century This second edition offers new sections on issues like detention in non international armed conflict characterisation of non international armed conflicts expanded chapters on occupation and the protection of civilians means and methods of warfare and implementation enforcement and accountability *Unmanned Combat Air Systems in Future Warfare* C. Wills,2016-04-29 Control of the air is the foundation for all conventional military operations against an adversary with an air defence capability In future warfare will it be possible for Unmanned Combat Air Systems to undertake the tasks and accept most of the risks that until now have been the lot of military aviators **The Oxford Handbook of International Law in Armed Conflict** Andrew Clapham,Paola Gaeta,Tom Haeck,2014-03 Written by a team of distinguished and internationally renowned experts this Oxford Handbook gives an analytical overview of international law as it applies in armed conflicts The Handbook draws on international humanitarian law human rights law and the law of neutrality to provide a comprehensive picture of the status of law in war **The Defence of Mistake of Law in International Criminal Law** Antonio Coco,2022-07-11 The adage ignorance of the law is no excuse is significantly inaccurate Ignorance and mistake of law do under certain circumstances exclude responsibility both in national and international criminal law This monograph updates the existing reviews of law and practice on the topic aiming to go a step

further it takes the analysis of mistake of law as a starting point for systematic observations about international criminal law in general First the volume defines the contours of the defence of mistake of law in general theory of criminal law distinguishing it from cognate defences and highlighting most notably its connection with superior orders Secondly it gives an overview of the possible approaches to the defence offering examples from national law as terms of reference for the subsequent analysis of international criminal law Thirdly it surveys the relevant law and practice of international criminal tribunals with a focus on the International Criminal Court and it contemplates offences for which a defence of mistake of law may potentially succeed Finally the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment Whilst the discourse on international criminal law is more and more concerned with global politics **The Defence of Mistake of Law in International Criminal Law** brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant a human being constituting the basic unit of each society **Jus ad Bellum** Stuart Casey-Maslen, 2020-08-06 This work expounds for those in practice and beyond the rules of international law governing the inter state use of force Jus ad bellum determines when a state or group of states may lawfully use force against or on the territory of another state and when such action violates international law The bedrock of the law is found in the Charter of the United Nations but the interpretation and application of many of the rules codified in the Charter particularly by the International Court of Justice are contested Accordingly the book clarifies the law as it stands today explaining its many complexities and controversies such as when non state actors may be attacked in another state and when consent is validly given to foreign intervention The interrelationships between jus ad bellum and the law of armed conflict international humanitarian law the law of neutrality and international human rights law are also illuminated along with important concepts such as the responsibility to protect and humanitarian intervention **The Nature of International Humanitarian Law** Anne Quintin, 2020-09-25 This illuminating book explores the nature of international humanitarian law IHL so doing by asking whether it should be seen as a permissive or a restrictive regime An experienced lawyer in the field Anne Quintin offers an in depth expert analysis of this highly debated topic revealing the true nature of IHL and concluding that whilst IHL initially developed as a restrictive regime composed of prohibitions and prescriptions it nevertheless contains within it rare permissions that allow states to act

Law-Making and Legitimacy in International Humanitarian Law Püschmann, Jonas, 2021-10-19 International Humanitarian Law IHL is in a state of some turbulence as a result of among other things non international armed conflicts terrorist threats and the rise of new technologies This incisive book observes that while states appear to be reluctant to act as agents of change informal methods of law making are flourishing Illustrating that not only courts but various non state actors push for legal developments this timely work offers an insight into the causes of this somewhat ambivalent state of IHL by focusing attention on both the legitimacy of law making processes and the actors involved
