Citizenship And Crisis Arab Detroit After 911:

Citizenship and Crisis Detroit Arab American Study Group, 2009-07-02 Is citizenship simply a legal status or does it describe a sense of belonging to a national community For Arab Americans these questions took on new urgency after 9 11 as the cultural prejudices that have often marginalized their community came to a head Citizenship and Crisis reveals that despite an ever shifting definition of citizenship and the ease with which it can be questioned in times of national crisis the Arab communities of metropolitan Detroit continue to thrive A groundbreaking study of social life religious practice cultural values and political views among Detroit Arabs after 9 11 Citizenship and Crisis argues that contemporary Arab American citizenship and identity have been shaped by the chronic tension between social inclusion and exclusion that has been central to this population's experience in America According to the landmark Detroit Arab American Study which surveyed more than 1 000 Arab Americans and is the focus of this book Arabs express pride in being American at rates higher than the general population In nine wide ranging essays the authors of Citizenship and Crisis argue that the 9 11 backlash did not substantially transform the Arab community in Detroit nor did it alter the identities that prevail there The city's Arabs are now receiving more mainstream institutional educational and political support than ever before but they remain a constituency defined as essentially foreign The authors explore the role of religion in cultural integration and identity formation showing that Arab Muslims feel more alienated from the mainstream than Arab Christians do Arab Americans adhere more strongly to traditional values than do other Detroit residents regardless of religion Active participants in the religious and cultural life of the Arab American community attain higher levels of education and income yet assimilation to the American mainstream remains important for achieving enduring social and political gains The contradictions and dangers of being Arab and American are keenly felt in Detroit but even when Arab Americans oppose U S policies they express more confidence in U S institutions than do non Arabs in the general population The Arabs of greater Detroit whether native born naturalized or permanent residents are part of a political and historical landscape that limits how when and to what extent they can call themselves American When analyzed against this complex backdrop the results of The Detroit Arab American Study demonstrate that the pervasive notion in American society that Arabs are not like us is simply inaccurate Citizenship and Crisis makes a rigorous and impassioned argument for putting to rest this exhausted cultural and political stereotype

Arabs and Muslims in the Media Evelyn Alsultany, 2012-08-20 After 9 11 there was an increase in both the

incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U S media Arabs and Muslims in the Media examines this paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as The Practice 24 Law and Order NYPD Blue and Sleeper Cell news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality *Western Muslims and Conflicts Abroad* Juris Pupcenoks, 2015-12-07 This book explains why reactive conflict spillovers political violence in response to conflicts abroad occur in some migrant background communities in the West Based on survey data statistical datasets more than sixty interviews with Muslim community leaders and activists ethnographic research in London and Detroit and open source data this book develops a theoretical explanation for how both differences in government policies and features of migrant background communities interact to influence the nature of foreign policy focused activism in migrant communities Utilizing rigorous mixed methods case study analysis the author comparatively analyses the reactions of the Pakistani community in London and the Arab Muslim community in Detroit to the wars in Afghanistan and Iraq during the decade following 9 11 Both communities are politically mobilized and active However while London has experienced reactive conflict spillover Detroit has remained largely peaceful The key findings show that with regards to activism in response to foreign policy events Western Muslim communities primarily politically mobilize on the basis of their ethnic divisions Nevertheless one notable exception is the Arab Israeli conflict which is viewed through the Islamic lenses and the common Islamic identity is important in driving mobilization domestically in response to Islamophobia and counterterrorism policies and practices perceived to be discriminatory Certain organizational arrangements involving minority community leaders law enforcement and government officials help to effectively contain excitable youth who may otherwise engage in deviant behavior Overall the following factors contribute to the creation of an environment where reactive conflict spillover is more likely to occur policies allowing immigration of violent radicals poor economic integration without extensive civil society inter group ties the presence of radical groups and connections with radical networks abroad *Between the Middle East and the Americas* Evelyn Alsultany, Ella Habiba Shohat, 2013-02-12 Perceptions of the Middle East in conflicting discourses from North America South America and Europe *100 Questions and Answers About Arab Americans* Joe Grimm, This simple introductory guide

answers 100 of the basic questions people ask about Arab Americans in everyday conversation Most of the work was done in the Detroit area home to the highest concentration of Arabs in the United States Find answers about culture customs identity language religion social norms politics education work families and food This guide is for businesses schools churches government medicine law enforcement human resources and individuals
