The overarching theme of the conference INPUT 2021 was Integrating Nature Based Solutions in Planning Science and Practice, with contributions focusing on functionality of urban ecosystems toward more healthier and resilient cities, planning solutions for socio-ecological systems, technologies and hybrid models for spatial planning, geodesign, urban metabolism, computational planning, ecosystems services, green infrastructure, climate change adaptation and mitigation, rural landscapes, cultural heritage and accessibility for urban planning. The conference brought together international scholars in the field of planning, civil engineering and architecture, ecology and social science to build and consolidate the knowledge and evidence on NBS in urban and regional planning. *Spatial Planning, Urban Form and Sustainable Transport* Katie Williams, 2017-03-02 The ways in which we travel have a huge impact on sustainability. This book addresses the relationship between travel patterns and the physical form of cities and considers the role of spatial planning in that relationship. Three sections present empirical research and commentaries from leading academics and practitioners from Europe, the USA, Australia and Japan. The first section considers the impact of urban form in combination with factors such as lifestyles and socio-demographic change on sustainable transport. The second addresses the impact of different elements of urban form such as density, configuration and mix of uses on mobility. The final section focuses on issues surrounding the implementation of spatial planning policies to support sustainable travel. The book will be of interest to practitioners, academics and students in the fields of planning, transport and geography. **Proceedings of the 2024 International Conference on Urban Planning and Design (UPD 2024)** Mujahid Ali, Ping Xiang, Mohamed A. McCalla, Brian Slack, 2016-05-23

Seaport gateways and the corridors which connect them to widely dispersed hinterlands are of vital and essential importance to international trade and the world economy Distributing goods to ultimate land destinations or bringing the goods to seaports from inland origins is organizationally complex involving multiple actors This book furthers understanding about how this movement is organized the role of ports acting as gateways and the actions of corridor players A key question that confronts the shipping and port industries as well as public authorities is how to increase the benefits of maritime trade to the companies and institutions directly involved as well as the port city regions where the transfers take place This question is being posed in the midst of a global economic recession and trade downturn and in the context of contemporary policy frameworks whose goals are to generate economic benefits and

efficiencies rather than to maximize traffic volumes This book puts into perspective the reality opportunities and challenges facing seaport gateways and corridors now and in the future     *Sustainable Urban Development Volume 2* Mark Deakin, Gordon Mitchell, Peter Nijkamp, Ron Vreeker, 2007-04-11 In this book the second of a three volume series leading authorities on the methodology of environmental assessment provide a unique insight into questions of critical importance to sustainable urban development Using the framework and protocols set out in Volume 1 Volume 2 examines how well the environmental assessment methods evaluate the ecological integrity of urban development and equity of the resulting resource distribution The examination focuses on the instruments of environmental assessment approaches to environmental assessment based in systems thinking methods for environmental economic and social assessments their use in evaluating the sustainability of urban development The Sustainable Urban Development Series contains the research and debate of the BEQUEST Building Environmental Quality Evaluation for Sustainability network funded by the European Commission Together the books provide a framework set of protocols environmental assessment methods and toolkit for policy makers academics professionals and advanced level students in urban planning and studies as well as other areas of the built environment     **City Competitiveness and Improving Urban Subsystems: Technologies and Applications** Bulu, Melih, 2011-10-31 Cities are becoming the wealth producing centers of national economies Increasing the operational efficiency of the city will bring a competitive edge to the whole system Yet many city subsystems cannot work together creating significant problems and inefficiencies City Competitiveness and Improving Urban Subsystems Technologies and Applications uses information science perspectives to improve working subsystems in transportation sewage electricity water communication education health governance and infrastructure since their efficient and synchronized operation is vital for a competitive city This pioneering approach will interest researchers professionals and policymakers in urban economy regional planning and information science disciplines who wish to improve the competitiveness of their cities

The Top Books of the Year Civil Engineering Urban Planning International The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. Civil Engineering Urban Planning International : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Civil Engineering Urban Planning International : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Civil Engineering Urban Planning International : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
