Situational Awareness Skills Dueep Jyot Singh, John Davidson, 2017-04-03 Table of Contents Introduction Recounting Your Memories And Reaffirming Them Recounting Your Powers of Observation Instinctive Readiness and Quick Action Awareness and Fear Make the Night Your Friend Navigating Instinctively The Observe Orient Decide and Act Strategy Awareness of Your Surroundings Acting on Instinct Behavioral Patterns Conclusion Author Bio Publisher Introduction A number of years ago I was just reminiscing about some survival skills we had learned as children instinctively and with a little bit of practice and I was surprised to find that these skills are now being taught as situational awareness skills I was under the impression that they were natural skills being taught to children and not something which was supposedly special Nevertheless this book is going to give you plenty of information on how you can develop these skills in order to be aware of everything in different situations indoors and outdoors In ancient times and in many civilizations it was necessary for every child to be well trained in situational awareness because that was the difference between survival or a future ending up as a saber tooth s dinner Even up to 200 years ago parents taught their children how to survive in the woods because it was a part of their training and upbringing Even a little child knew the difference between keeping really quiet and chattering away in the woods when one was hunting I was reading a book about a girl whose father was a missionary and who lived near Native American tribes throughout her childhood and youth She was semi adopted by the Native Americans and given a name of Bright Shining Light because of her golden hair and happy and sunny nature She spent most of her time with the Sioux learning their ways an activity which was encouraged by her father and discouraged by her mother who was definitely not cut out to be a brave pioneering courageous woman if we went by her whining complaining and general disinclination to know anything about a great nation their people their culture because she had learned that they were pagans heathens and savages Nevertheless this little girl saw a baby being cuddled by its grandmother and the moment he began to make a noise the grandmother placed a hand lightly over its mouth That was because existence for these people was so precarious that a slight sound could make the difference between life and death especially when they were hiding from their enemies The baby soon learned that it was not to make any noise under any circumstances It was only a couple of days old So its traditional training began as soon as the elders of the tribe knew that it was healthy enough to survive *Driver* ,1984 **Astrobiology** Octavio A.
