The Cambridge Handbook of Parenting Amanda

Sheffield Morris, Julia Mendez Smith, 2022-12-15 Parenting is a critical influence on the development of children across the globe This handbook brings together scholars with expertise on parenting science and interventions for a comprehensive review of current research It begins with foundational theories and research topics followed by sections on parenting children at different ages factors that affect parenting such as parental mental health or socioeconomic status and parenting

children with different characteristics such as depressed and anxious children or youth who identify as LGBTQ It concludes with a section on policy implications as well as prevention and intervention programs that target parenting as a mechanism of change Global perspectives and the cultural diversity of families are highlighted throughout Offering in depth analysis of key topics such as risky adolescent behavior immigration policy father engagement family involvement in education and balancing childcare and work this is a vital resource for understanding the most effective policies to support parents in raising healthy children *Digital Media and Early Child Development* Giana Bitencourt Frizzo,2024-11-18 This book analyzes how the use of digital media by young children can affect their development Children are starting to use digital media at an earlier age and this use is increasing With the adoption of technology moving so quickly research in the area also needs to evolve and new theoretical and methodological approaches are needed This book aims to contribute to this field of study by presenting new theoretical frameworks and methodological approaches to help advance research by discussing results of empirical studies carried out with young children and their caregivers and by proposing possible interventions to help parents and caregivers better oversee their children s digital media use Chapters in this volume are divided into five parts The first part is dedicated to discussing theoretical and methodological issues involved in the study of digital media use by young children The second part presents empirical studies that investigate the potential impacts of digital media use in child development The third part brings together studies analyzing digital media use and early child development during the COVID 19 pandemic Chapters in the fourth part analyze how digital media use affects parenthood And the fifth and final part presents proposals of educational interventions to help parents and caregivers oversee their young children s digital media consumption *Digital Media and Early Child Development Theoretical and Empirical Issues* will be of interest to different kinds of researchers and practitioners working with child family and media studies Researchers in the fields of developmental psychology and media studies will find innovative theoretical and methodological proposals to study how young children interact with digital media While child and family psychologists social workers and pediatricians will find useful information to understand when digital media use can cause problems to children and their families *Ebook: The Science of Psychology: An Appreciative View* King,2016-09-16 Ebook *The Science of Psychology An Appreciative View*

Handbook on the Science of Early Literacy Sonia Q. Cabell,Susan B. Neuman,Nicole Patton Terry,2024-04-25 Synthesizing the best current knowledge about early literacy this comprehensive handbook brings together leading researchers from multiple disciplines The volume identifies the instructional methods and areas of focus shown to be most effective for promoting young children s PreK 2 growth in reading writing oral language and the connections among them In 33 chapters the Handbook covers conceptual foundations development and instruction of both code and meaning related literacy skills professional development and family engagement supporting equity across populations and learning beyond traditional boundaries including digital and out of school contexts Highlighted throughout are issues around access to high

quality instruction working with multilingual populations and data based decision making and interventions **Ebook:**
