China's War in Korea Xiaobing Li, 2019-11-05 This book revisits the history of the Korean War of 1950-1953 from a Chinese perspective examining Chinese strategy and exploring why China sent three million troops to Korea in Mao's words to defend the homeland and safeguard the country giving rise to what became the war's common name in China It also looks into the relatively neglected historical factors which have redefined China's security concerns and strategic culture Using newly available sources from China and the former Soviet Union the book considers how interactive the parameters of defense changes were in a foreign war against Western powers how flexible Chinese strategy was in the context of its intervention and how expansive its strategic cultural repertoire was at the crucial moment to defend the country Providing a re-examination of China's military decisions and strategy evolution this text narrates the story of successive generations of Chinese leaders and provides a key insight into security issues in China and Northeast Asia today

Imjin River 1951 Brian Drohan, 2018-10-18 After China's November 1950 intervention in the war and the subsequent battle of the Chosin Reservoir UN forces faced a new onslaught in the spring of 1951 with over 350 000 veteran troops attacking along the Imjin River The US 3rd Infantry Division took the brunt of the attack along with the attached British 29th Infantry Brigade which included the Gloucestershire Regiment the Glosters The heroic defence of the American and British forces would pass into legend most especially the doomed effort of the Glosters as they sought to buy time for the rest of the UN forces to regroup

and organise an effective defence of Seoul the South Korean capital city Featuring full colour commissioned artwork maps and first hand accounts this is the compelling story of one of the most epic clashes of the Korean War *Battle for Malaya*
Kaushik Roy,2019-12-02 The historian and author of *The Army in British India* analyzes the British Indian Army's devastating loss to the Imperial Japanese during WWII The defeat of 90 000 Commonwealth soldiers by 50 000 Japanese soldiers made the World War II Battle for Malaya an important encounter for both political and military reasons British military prestige was shattered fanning the fires of nationalism in Asia especially in India Japan's successful tactics in Malaya rapid marches wide outflanking movement along difficult terrain nocturnal attacks and roadblocks would be repeated in Burma in 1942-43 Until the Allied command evolved adequate countermeasures Japanese soldiers remained supreme in the field Looking beyond the failures of command Kaushik Roy focuses on tactics of the ground battle that unfolded in Malaya between December 1941 and February 1942 His analysis includes the organization of the Indian Army the largest portion of Commonwealth troops and compares it to the British and Australian armies that fought side by side with Indian soldiers Utilizing both official war office records and personal memoirs autobiographies and oral histories Roy presents a comprehensive narrative of operations interwoven with tactical analysis of the Battle for Malaya *China's Stealth Fighter*
Abraham Abrams,2025-01-02 A detailed exploration of China's J 20 stealth fighter its development impact and role in reshaping global power dynamics The United States and Soviet Union began a race to develop the first and most capable fifth generation stealth fighters in the late 1970s The Cold War's end however was followed by both a near total collapse of Russian efforts and major cuts and delays to American programs This provided an opening for a rising and fast modernising Chinese defense industry to kick off its own ambitious program to produce a world leading fighter jet with next generation capabilities Once unveiled the program came to be seen as a herald of China's rising status as a leading player in high tech and major world power Development of the Chengdu J 20 began in the 1990s and has since consistently far exceeded expectations in both its performance and its development timeline The fighter made its first flight in 2011 and began deliveries to the People's Liberation Army Air Force in 2016 a small fraction of the time its American and Russian rivals would take Today it is the world's second most numerous stealth fighter outnumbered only by America's much smaller Lockheed Martin F 35 Lightning II with the two rivals seeing their first of many likely encounters confirmed in March 2022 As the J 20's capabilities have rapidly improved and the rate of production has significantly grown it has very conspicuously played a growing role in patrolling major hotspots in East Asia from Korea and the East China Sea to the Taiwan Strait and disputed South China Sea The J 20 program's success has been the most potent symbol of China's ascent from a minor player in combat aviation during the Cold War to the United States only peer level competitor today It has also set China on a course of pursuing multiple other fighter development efforts including a close competition with America to field the first and most capable sixth generation fighter in the 2030s The J 20 thus marks a major landmark not only in Chinese aviation history

but also more broadly in the evolving balance of power between East and West as the country's technological and economic ascents allow it to successfully pursue highly ambitious weapons programs This book takes the J 20's story far back to the formation of the People's Liberation Army Air Force and its trial by fire in the Korean War tracing the rationale for developing a top end air superiority fighter It also compares its performance with rival fifth generation fighter programs in other countries and looks ahead to what the future may hold in this new arms race **Sino-American Relations** Xiaobing

Li,Qiang Fang,2025-10-01 Sino American Relations brings together high quality research articles in order to examine one aspect of the political mechanism of modern China from empire to the PRC political initiatives to root out corruption Proceeding chronologically the eleven chapters explore modern political history through a particular focus on the anti corruption campaigns of early modern and modern China Our interdisciplinary analysis draws on methodologies from several distinct fields including political science civil law and mass media Such an analysis reveals the unique characteristics of China's urbanization which have transformed not only the country but also the CCP from a rural based totalitarian party to a city centered authoritarian party and from a party of the people to a party of powerful interest groups by 2002 2016

Building Ho's Army Xiaobing Li,2019-09-10 Built upon a solid foundation of sources memoirs and interviews this study sheds new light on China's efforts in the Vietnam War Utilizing secondary works in Chinese Vietnamese and Western languages and the author's own familiarity as a former member of the Chinese People's Liberation Army this examination expands the knowledge of China's relations with the North Vietnamese Army NVA during the 1950s and 1960s As a communist state bordering Vietnam China actively facilitated the transformation of Ho Chi Minh's army from a small loosely organized poorly equipped guerrilla force in the 1940s into a formidable well trained professional army capable of defeating first the French 1946 1954 and then the Americans 1963 1973 Even after the signing of the Geneva Peace Agreement China continued to aggressively support Vietnam Between 1955 and 1963 Chinese military aid totaled 106 million and these massive contributions enabled Ho Chi Minh to build up a strong conventional force After 1964 China increased its aid and provided approximately 20 billion more in military and economic aid to Vietnam Western strategists and historians have long speculated about the extent of China's involvement in Vietnam but it was not until recently that newly available archival materials revealed the true extent of China's influence its level of military assistance training strategic advising and monetary means during the war This illuminating study answers questions about China's intention objective strategy and operations of its involvement in the Vietnam Wars **Korea** Richard Dannatt,Robert Lyman,2025-05-22 A ground breaking

history of this global conflict including the errors and miscalculations made on both sides Korea War Without End examines the stand off between East and West in Korea that ultimately defined the second half of the 20th century It provides a critical analysis of the lack of preparation by the West for war the results of the North Korean invasion in June 1950 the counter stroke by MacArthur in September and then the strategic overreach which led to communist China's involvement on the

North Korean side and the rapid escalation to consideration of the use of nuclear weapons Through meticulous analysis of all the source material this book details the chaos of political decision making at the war's outset and as it progressed The Korean War was not planned as a Communist offensive against the West In turn the East did not understand the principle at the core of the Western response to Kim Il sung's aggression namely a refusal to appease an aggressor the key mistake the West considered to be at the heart of the rise of Nazi Germany and militaristic Japan in the 1930s Korea War Without End also considers the effect of the fighting on civilians While the war was a proxy one between East and West the people of Korea suffered immensely with approximately 3 million war fatalities and a larger proportional civilian death toll than World War II This is the definitive history of the conflict that is long overdue [Anti-Aircraft Artillery in Combat, 1950-1972](#)

Mandeep Singh, 2020-04-30 Anti aircraft artillery was extensively used in combat in the First World War though such weapons had made their debut in the Franco Prussian War in 1870 when the besieged French used balloons for observation and communication and the Prussians used the first custom built 1 pounder gun to try and shoot them down It was however not until the Second World War that anti aircraft artillery came into prominence shooting down more aircraft than any other weapon and seriously degrading the conduct of air operations In the battle between the attackers and anti aircraft artillery the latter had the upper hand when the war ended The post war years saw a decline in anti aircraft artillery as peace prevailed and the advent of the jet aircraft seemed to tilt the balance in favour of the aircraft as they flew faster and higher seemingly beyond the reach of anti aircraft artillery It would take all the hi tech equipment and the guile and cunning that anti aircraft artillery could muster to try and reclaim pole position It is that story of the tug of war between the aircraft and artillery that forms the narrative of this book as it traces the history of combat employment of anti aircraft artillery from the Korean War in effect the first Jet Age war to the War of Attrition between Arab states and Israel when the missiles came of age sending the aircraft scurrying for cover Anti Aircraft Artillery in Combat 1950 1972 is the first attempt to look at the combat performance of ground based air defences incorporating the views analyses and experiences of Soviet Arab and South Asian Armies The book looks at the major wars between 1950 and 1972 including the Korean War Vietnam War the wars in South Asia in 1965 and 1971 and conflicts in the Middle East such as the Six Day War
