De keten uitgedaagd Remco van Wijk, Niels de Winne, 2014-03-15 Verantwoording is een maatschappelijk vraagstuk van de eerste orde maar ook een bron van groeiende zorg en irritatie voor veel organisaties In 2004 startten het ministerie van Financiën en het ministerie van Justitie een onderzoek naar de mogelijke toepassing van eXtensible Business Reporting Language XBRL als uniforme gegevensstandaard voor verantwoording In 2006 lag er een architectuur voor Standard Business Reporting In 2007 werden de eerste berichten in XBRL via een generieke voorziening succesvol bij de Belastingdienst en de Kamer van Koophandel afgeleverd Eind 2009 werd er serieus ingezet op de grootschalige transitie van informatieketens Sinds 2013 biedt Logius met Standard Business Reporting een werkende en efficiënte standaardoplossing voor massale verantwoording De keten uitgedaagd Besturen en verantwoorden in een wereld vol ICT beschrijft de weg die Standard Business Reporting heeft afgelegd van opgave tot oplossing Specialisten uit de praktijk en wetenschappers geven een gefundeerd en gedetailleerd inzicht in de uitdagingen die komen kijken bij de transitie van informatieketens In haar veelzijdigheid is het boek exemplarisch voor de benodigde paradigmaverschuivingen binnen het veranderdomein Het boek biedt bovendien alle praktische informatie die partijen nodig hebben om de SBR oplossingen toe te passen in het eigen domein Het is inmiddels algemeen bekend dat het bij grootschalige ICT programma's om veel meer draait dan techniek alleen Met Standard Business Reporting als toonbeeld van een domein waarin informatieketens grondig werden aangepakt is De keten uitgedaagd een niet te missen handboek voor bestuurders en programmamanagers die willen besturen en verantwoorden in een wereld vol ICT Kennis, Mensen en Organisaties Th. Improvement with Information Technology in Educational Management C.J. Patrick Nolan, A. Fung, Margaret Brown, 2006-04-11 New Zealand schools have experienced unprecedented change during the last decade. Radical restructuring of the frameworks for both curriculum and qualifications followed a movement towards self management in 1989. The curriculum framework consisting of seven essential learning areas has been progressively introduced with completion not expected until 2002. The new Qualifications Framework based on unit standards was launched in 1994. The introduction of unit standards signalled an emphatic movement towards the use of internal assessment for awarding qualifications at the senior secondary school level. Each course had unit standards defined which described the outcomes and the performance criteria that would be used to determine whether or not the standard had been achieved. Approximately five to eight standards would be used for each full year course and each standard had a number of credits associated with it. The plan which has since been modified was for these credits to contribute to a National Certificate of Educational Achievement at years 12 and 13 and other subject specific National Certificates. Secondary schools were faced with the task of recording and reporting 1 unit standard results to the New Zealand Qualifications Authority. This by itself was not a major issue as the significant suppliers of CSIS had modules available which satisfied this need. At this time a model was being presented to school audiences demonstrating how the recording, reporting and evaluation of assessment data relating to the curriculum framework could be relatively straight forward IF there was a common assessment currency across the school. This model was converted into software form for demonstration purposes.

Didactiek voor opleiders in organisaties J.J. Peters, M. Biesheuvel, 1986-09-14 In het Nederlandse taalgebied ontbrak een praktische systematische didactiek voor opleiders in arbeidsorganisaties. Ingewikkelde theoretische beschouwingen vermijgend bieden de auteurs een concrete toepasbare handleiding voor het plannen, uitvoeren en evalueren van cursussen en lessen. Niet via de voorschriften en regels maar via suggesties en aanwijzingen die op eigen onderzoek en ervaring berusten. Zo zijn aan dit boek bijvoorbeeld verschillende edities voorafgegaan die aan de praktijk van enkele bedrijfsopleidingen zijn getoetst.
