Concepts And Case Analysis In The Law Of Contracts Concepts And Insights:

Concepts and Case Analysis in the Law of Contracts Marvin A. Chirelstein, 1990 **A Theory of Contract Law** Peter A. Alces, 2011-04-07 In the past few decades scholars have offered positive normative and most recently interpretive theories of contract law. These theories have proceeded primarily indeed necessarily from deontological and consequentialist premises. In *A Theory of Contract Law: Empirical Insights and Moral Psychology* Professor Peter A. Alces confronts the leading interpretive theories of contract and demonstrates their doctrinal failures. Professor Alces presents the leading canonical cases that inform the extant theories of Contract law in both their historical and transactional contexts and argues that moral psychology provides a better explanation for the contract doctrine than do alternative comprehensive interpretive approaches. The AALS Directory of Law Teachers, 2003 *Current Publications in Legal and Related Fields*, 2003
