Handbook of Research on Climate Change and the Sustainable Financial Sector Olarewaju, Odunayo Magret, Ganiyu, Idris Olayiwola, 2021-06-25 Climate change is a major problem generating both risks and opportunities that will have a direct impact on the economy and the financial sector In recent years climate change has threatened both the survival of the financial system and economic development The growing occurrence of extreme climate events combined with the imprudent nature of economic growth can cause unsustainable levels of harm to the financial

sectors On the other hand it presents a range of new business challenges In contrast to the most evident physical risks companies are vulnerable to transformational risks that arise from the reaction of society to climate change such as technological change regulation and markets that can boost the cost of doing business threats to the profitability of existing goods or effects on the value of the asset Climate change also offers new business opportunities and it has made research in the context of a sustainable financial sector indispensable The Handbook of Research on Climate Change and the Sustainable Financial Sector focuses on the impacts of climate change on various sectors of the world economy This book covers how businesses can improve their sustainability the impact of climate change on the financial sector and specifically the impacts on financial services supply chains and the socio economic status of the world Beyond focusing on the impacts to the financial industry itself this book assesses how climate change in the financial sector affects the well being of society in areas such as unemployment economic recessions decreases in consumer purchases and more This book is essential for stockbrokers business managers directors fund managers financial analysts consultants and actuaries institutional investors policymakers practitioners researchers academicians and students interested in a comprehensive view of the impact of climate change on the financial sector *Climate Urbanism* Vanesa Castán Broto,Enora Robin,Aidan While,2020-11-28 This book argues that the relationship between cities and climate change is entering a new and more urgent phase Thirteen contributions from a range of leading scholars explore the need to rethink and reorient urban life in response to climatic change Split into four parts it begins by asking What is climate urbanism and exploring key features from different locations and epistemological traditions The second section examines the transformative potential of climate urbanism to challenge social and environmental injustices within and between cities In the third part authors interrogate current knowledge paradigms underpinning climate and urban science and how they shape contemporary urban trajectories The final section focuses on the future envisaging climate urbanism as a new communal project and focuses on the role of citizens and non state actors in driving transformative action Consolidating debates on climate urbanism the book highlights the opportunities and tensions of urban environmental policy providing a framework for researchers and practitioners to respond to the urban challenges of a radically climate changed world Anthropology and Climate Change Susan A. Crate,Mark Nuttall,2016-03-31 The first edition of Anthropology and Climate Change 2009 pioneered the study of climate change through the lens of anthropology covering the relation between human cultures and the environment from prehistoric times to the present This second heavily revised edition brings the material on this rapidly changing field completely up to date with major scholars from around the world mapping out trajectories of research and issuing specific calls for action The new edition introduces new foundational chapters laying out what anthropologists know about climate change today new theoretical and practical perspectives insights gleaned from sociology and international efforts to study and curb climate change making the volume a perfect introductory textbook presents a series of case studies both new case studies and old

ones updated and viewed with fresh eyes with the specific purpose of assessing climate trends provides a close look at how climate change is affecting livelihoods especially in the context of economic globalization and the migration of youth from rural to urban areas expands coverage to England the Amazon the Marshall Islands Tanzania and Ethiopia re examines the conclusions and recommendations of the first volume refining our knowledge of what we do and do not know about climate change and what we can do to adapt **The UN Framework Convention on Climate Change** Timothy O'Riordan, James Cameron, 1992
