Connection Hollywood Storytelling Meets Critical Thinking:

Connection Randy Olson, Dorie Barton, Brian Palermo, 2013 The power and importance of storytelling is now widely accepted but this book goes further to focus on storymaking CONNECTION brings together a former scientist a story consultant and an improv actor to give you the critical thinking of science combined with a century of Hollywood knowledge in the creation and shaping of stories The material is relevant to lawyers politicians public health workers educators activists everyone In today's Twitterfied world CONNECTION provides the narrative tools for effective communication **Houston,**

We Have a Narrative Randy Olson, 2015-09-15 Communicate more effectively about science by taking a page from Hollywood and improving your storytelling skills Ask a scientist about Hollywood and you'll probably get eye rolls But ask someone in Hollywood about science and they'll see dollar signs Moviemakers know that science can be the source of great stories with all the drama and action that blockbusters require That's a huge mistake says Randy Olson Hollywood has a lot to teach scientists about how to tell a story and ultimately how to do science better With Houston We Have a Narrative he lays out a stunningly simple method for turning the dull into the dramatic Drawing on his unique background which saw him leave his job as a working scientist to launch a career as a filmmaker Olson first diagnoses the problem When scientists tell us about their work they pile one moment and one detail atop another moment and another detail a stultifying procession of and and and What we need instead is an understanding of the basic elements of story the narrative structures that our brains are all but hardwired to look for which Olson boils down brilliantly to And But Therefore or ABT At a stroke the ABT approach introduces momentum And conflict But and resolution Therefore the fundamental building blocks of story As Olson has shown by leading countless workshops worldwide when scientists' eyes are opened to ABT the effect is staggering suddenly they're not just talking about their work they're telling stories about it And audiences are captivated Written with an uncommon verve and enthusiasm and built on principles that are applicable to fields far beyond science Houston We Have a Narrative has the power to transform the way science is understood and appreciated and ultimately how it's done Big
