change within their communities It outlines a distinct approach to community practice born out of the intersection among social movements day to day organizing and the lessons of five decades of community change practices This invaluable resource is a must have for anyone involved in community organization community health and community activism practice research and policy *Confronting Capitalism* George Katsiaficas,2021 No Pasaran Shane Burley,2022-10-25 A collection written by a who s who of antifascist researchers and theorists in the US including Tal Lavin Culture Warlords Kim Kelly Fight Like Hell Hilary Moore No Fascist USA and Daryle Lamont Jenkins One People s Project No Pasar n is an anthology of antifascist writing that takes up the fight against white supremacy and the far right from multiple angles From the history of antifascism to today s movement to identify deplatform and confront the right and the ways an insurgent fascism is growing within capitalist democracies a myriad of voices come together to shape the new face of antifascism in a moment of social and political flux **Confronting Capitalism** Eddie Yuen,Daniel Burton-Rose,George N. Katsiaficas,2004 An introduction to anti globalization activities discusses such events as the999 uprising against the World Trade Organization linking such protests tother uprisings in anti capitalist history while addressing questions abouton violence tactics and the efficacy of NGOs Reprint **Subject Guide to Books in Print** ,1991 Confronting Capitalism Vivek Chibber,2022-08-30 A strategic guide to building a more democratic and egalitarian future Why is our society so unequal Why despite their small numbers do the rich dominate policy and politics even in democratic countries Why is it so difficult for working people to organize around common interests How do we begin to build a more equal and democratic society Vivek Chibber provides a clear and accessible map of how capitalism works how it limits the power of working and oppressed people and how to overcome those limits The capitalist economy generates incredible wealth but also injustice Those who own the factories hotels and farms always have an advantage over the people who rely on that ownership class for their livelihoods This inequality in power and income is reflected in the operation of the state where capitalists are able to exert their will even under relatively democratic conditions The most important reason is that states depend on the employment and profits from capitalist enterprise for both finances and legitimacy Every meaningful victory for working people has been won through collective struggle but collective action is very difficult to coordinate In the final section of the book Chibber walks the reader through some of the historical attempts to build socialism and presents a vision of how we might perhaps against the odds build a socialist future **The Washington Post Index** ,1989
