Capital Moves Jefferson Cowie, 2019-01-24 Find a pool of cheap pliable workers and give them jobs and soon they cease to be as cheap or as pliable What is an employer to do then Why find another poor community desperate for work This route one taken time and again by major American manufacturers is vividly chronicled in this fascinating account of RCA's half century long search for desirable sources of labor *Capital Moves* introduces us to the people most affected by the migration of industry and most importantly recounts how they came to fight against the idea that they were simply cheap labor Jefferson Cowie tells the dramatic story of four communities each irrevocably transformed by the opening of an industrial plant From the manufacturer's first factory in Camden New Jersey where it employed large numbers of southern and eastern European immigrants RCA moved to rural Indiana in 1940 hiring Americans of Scotch Irish descent for its plant in Bloomington Then in the volatile 1960s the company relocated to Memphis where African Americans made up the core of the labor pool Finally the company landed in northern Mexico in the 1970s a region rapidly becoming one of the most industrialized on the continent **New Labor Forum**, 2002 **Toward Camden** Mercy Romero, 2021-08-30 In *Toward Camden* Mercy Romero writes about the relationships that make and sustain the largely African American and Puerto Rican Cramer Hill neighborhood in New Jersey where she grew up She walks the city and writes outdoors to think about the collapse and transformation of property She revisits lost and empty houses her family's house the Walt Whitman House and the landscape of a vacant lot Throughout Romero engages with the aesthetics of fragment and ruin her writing juts against idioms of redevelopment She resists narratives of the city that are inextricable from crime and decline and witnesses everyday lives lived at the intersection of spatial and Puerto Rican diasporic memory *Toward Camden* travels between what official reports say and what the city's vacant lots withhold Duke University Press Scholars of Color First Book Award recipient *A Companion to Post-1945 America* Jean-Christophe Agnew, Roy Rosenzweig, 2008-04-15 *A Companion to Post 1945 America* is an original collection of 34 essays by key scholars on the history and historiography of Post 1945 America Covers society and culture people and movements politics and foreign policy Surveys and evaluates the best scholarship on every important era and topic Includes book review section on essential readings *Capital Moves* Jefferson Cowie, 2001

Labor's End Jason Resnikoff, 2022-01-18 *Labor's End* traces the discourse around automation from its origins in the factory to its wide ranging implications in political and social life As Jason Resnikoff shows the term automation expressed the conviction that industrial progress meant the inevitable abolition of manual labor from industry But the real substance of the term reflected industry's desire to hide an intensification of human work and labor's loss of power and protection behind magnificent machinery and a starry eyed faith in technological revolution The rhetorical power of the automation ideology revealed and perpetuated a belief that the idea of freedom was incompatible with the activity of work From there political actors ruled out the workplace as a site of politics while some of labor's staunchest allies dismissed sped up tasks expanded

workloads and incipient deindustrialization in the name of technological progress A forceful intellectual history Labor's End challenges entrenched assumptions about automation's transformation of the American workplace Plastic Capitalism Sean H. Vanatta, 2024-05-21 How bankers created the modern consumer credit economy and destroyed financial stability in the process American households are awash in expensive credit card debt But where did all this debt come from In this history of the rise of postwar American finance Sean H Vanatta shows how bankers created our credit card economy and with it the indebted nation we know today America's consumer debt machine was not inevitable In the years after World War II state and federal regulations ensured that many Americans enjoyed safe banks and inexpensive credit Bankers though grew restless amid restrictive rules that made profits scarce They experimented with new services and new technologies They settled on credit cards and in the 1960s mailed out reams of high interest plastic to build a debt industry from scratch In the 1960s and 70s consumers fought back using federal and state policy to make credit cards safer and more affordable But bankers found ways to work around local rules Beginning in 1980 Citibank and its peers relocated their card plans to South Dakota and Delaware states with the weakest consumer regulations creating on shore financial havens and drawing consumers into an exploitative credit economy over which they had little control We live in the world these bankers made
