Comic Girl 19 Crying:

The Orphan in Fiction and Comics since the 19th Century Marion Gymnich, Barbara Puschmann-Nalenz, Gerold Sedlmayr, 2018-07-27 The orphan has turned out to be an extraordinarily versatile literary figure By juxtaposing diverse fictional representations of orphans this volume sheds light on the development of cultural concepts such as childhood family the status of parental legacy individualism identity and charity The first chapter argues that the figure of the orphan was suitable for negotiating a remarkable range of cultural anxieties and discourses in novels from the Victorian period This is followed by a discussion of both the rare examples of novels from the first half of the 20th century in which main characters are orphaned at a young age and Anglophone narratives written from the 1980s onward when the figure of the orphan proliferated once more The trope of the picaresque the theme of absence and the problem of parental substitutes are among the issues addressed in contemporary orphan narratives The book also looks at the orphan motif in three popular fantasy series namely Rowling's Harry Potter septology Pullman's His Dark Materials trilogy and Martin's A Song of Ice and Fire series It then traces the development of the orphan motif from the end of the 19th century to the present in a range of different types of comics including funnies and gag a day strips superhero comics underground comix and autobiographical comics
