Ordinary in Brighton?: LGBT, Activisms and the City Kath Browne, Leela Bakshi, 2016-05-13 Ordinary in Brighton offers the first large scale examination of the impact of the UK equalities legislation on lesbian gay bi and trans LGBT lives and the effects of these changes on LGBT political activism Using the participatory research project Count Me In Too this book investigates the material issues of social spatial injustice that were pertinent for some but not all LGBT people and explores activism working in partnership that operated within the state Ordinary in Brighton explores the unevenly felt consequences of assimilation and inclusion in a city that was compelled to provide a place literally and figuratively for LGBT people Brighton itself is understood to be exceptional and exploring this specific location provides insights into how place operates as constitutive of lives and activism Despite its placing as the gay capital and its long history as a favoured location of LGBT people there is very little academic or popular literature published about this city This book offers insights into the first decade of the 21st century when sexual and gender dissidents supposedly became ordinary here rather than exceptional and transgressive It argues that geographical imaginings of this city as the gay capital formed activism that sought positive social change for LGBT people The possibilities of legislative change and urban inclusivities enabled some LGBT people to live ordinary lives but this potential existed in tension with normalisations and exclusions Alongside the necessary critiques Ordinary in Brighton asks for conceptualisations of the creative and co operative possibilities of ordinariness The book concludes by differentiating the exclusionary ideals of normalisation from the possibilities of ordinariness which has the potential to render a range of people not only in place but commonplace All royalties from this book will be donated to
