devote 10 000 hours of practice before becoming a master of your endeavor I remember my first Forex training course it was 900 and it only covered the basics it was O K at the time but there was so much more I had to learn I later subscribed with another guy for 650 one off fee and a recurring 90 monthly subscription charge to trade with him twice a week I did this for one and a half years That is my two main ones but I have done a trading psychology course and many many more Looking back thinking that the amount of money I have actually paid for fragments of information is kind of sickening I am a firm believer of that you should pay for your education and pay well when you can because you have to be cautious about the free information out there but we want information for a reasonable price have it all in one place and have life time updates on new trading techniques So this is what I propose Learn from somebody that came from the bottom and had nobody to help but his eagerness and drive If you become one of my loyal members I will teach you about the basics of the Forex markets with lifetime updates This is my website Forex trading and teaching is my life In exchange for a small one off fee for the time and effort devoted to building the tactical trader boot camp website I will devote to giving you everything you need to know getting started in Forex trading it will give you the insights into Forex trading I won t teach you every single thing I do not use every single indicator I will not explain every single indicator trading patterns or trading algorithms I will simply teach you what you need to know and give you the tools you need to become your own success story I cut out all of the fluff no B S and as long as you can put up with my Scottish accent I think we will be just fine So become a member of the boot camp and start learning today
